FIVE CENTS THE COPY

CONTRACT WARD SCHOOL IS LET

S. A. HILL AWARDED CONTRACT
FOR NEW WARD SCHOOL
AND WILL BEGIN WORK
AT ONCE.

On May 11th of this year the citizens of Ada voted bonds to the amount of \$75,000 to be used in erecting a school building somewhere in the south part of town. This building was proposed for the purpose of caring for the grade children in the south ward and thus eliminating the necessity of the smaller ones having to cross the railroads on their way to school. The school board also had in mind the accommodation of the children in Portland Park.

Soon after the bond issue the board of education employed the Jewel Hicks Architect Co., of Oklahoma City to draw up plans and specifications for the building. Also, the American National Bank of Oklahoma City was entrusted to care for the legal end of the bond issue.

The above named bank notified the board not long ago that the bonds would soon be available. The board then advertised for bids and set July 13th at 2 p. m., as the time for receiving bids and letting contract for the construction of the building.

At the board meeting yesterday afternoon there were five bidders, all out of town men excepting Sam Hill. After consideration of the bids the contract was awarded to Mr. Hill. His construction price was \$65,310, the lowest bid of all. The new building will be made of brick and reinforced concrete. It will be entirely modern and fire proof throughout. It will have two basement rooms for vocational work and five rooms on each of the other two floors for regular class work. Two of these rooms on the third floor will be so arranged as to be able to be thrown together for assembly purpose. Provision is also made for principal's office and teacher's rest room.

Mr. Hill will begin work as soon as possible on the building and it is expected to be ready for use by the beginning of the second semester of the coming school year. As stated before, it will accommodate all children in the south ward up to the junior high school grades.

The new school building will be erected on the block of ground between Oak and Ash avenues and 16th and 17th streets. This ground was purchased some time ago. The building itself will face 17th street.

That this building is a very pressing necessity is beyond all question with people who are familiar with conditions prevailing in the city. Are you aware of the fact that there were nine grades in our system last year that ran only on a half day basis? And did you know that there were some 400 children in our city last year who were not even enrolled in our school? The compulsory law is going to be enforced next year according to the statement of Superintendent J. E. Hickman. The new building will only accommodate the overflow of those who attended last year. You can use your own mathematics and see what shape our schools will be in next year when the 400 unenrolled pupils come in together with the natural increase because of increase in population. Superintendent Hickman states that probably half of the school will have to be run on a half day basis next year.

The school board and the city school administration in general wishes to thank the public for the support that has always been given. It is not that the public is not willing to do what is necessary, but that they don't understand. We can't expect a growth in population without a corresponding increase in school children.

NEW FUSION PARTY IN HARD STRAITS, SEEMS

By the Associated Press
CHICAGO, July 14.—Hopes for the survival of the new fusion party were at its tide today. After all night conferences of the new bodies, resolution committees today dragged along in an effort to get together on a platform acceptable to Senator La Follette.

The first evidence of a possible breaking up of the new party movement followed last night's session, when the single tax forces withdrew, adopted their own platform plank and nominated a presidential candidate. For president they chose Robert C. MacCawley, of Philadelphia, and for vice president they selected R. C. Barnum of Cleveland.

The birth of the new party yesterday, after five days of conferences, was attended by tumultuous scenes, in which more than once the fledgling movement faced shipwreck on the rocks of jealousy and group antagonism.

Here is a late photo of beautiful Mary Pickford, the screen star with a world wide reputation. She appears in "Suds," her greatest production, at the opening of the new McSwain Theatre in this city next Monday.

COX WALLOPS SEN. HARDING

SAYS HIS TASK, IF ELECTED,
WILL BE TO BRING PEACE
WITH HONOR TO THIS
OLD WORLD.

By the Associated Press

COLUMBUS, Ohio, July 14.—Charging that Senator Harding, the republican presidential nominee, had made his "front porch listening post," Governor Cox the democrat nominee, today issued a statement replying to Senator Harding's statement of yesterday, that the Wilson administration had saddled the League of Nations upon him as the chief campaign issue.

Governor Cox's statement said his campaign would be devoted to the "task of bringing peace with honor, of readjusting the affairs of civilization and of creating a new day out of which he will make the best of the lessons of the past."

"Senator Harding has made two definite announcements that he proposes to hark back to the days of thirty years ago, and that he will make of his front porch a listening post."

"My campaign will be dedicated to the task of bringing peace with honor."

By the Associated Press
MARION, Ohio, July 14.—Senator Harding, when shown a copy of Governor Cox's statement issued today, in which reference was made to the senator's plan for a front porch campaign, said he saw nothing in the statement that justified any response. He also said that it was useless to enter into a "wire debate" with the democratic nominee.

"Some day I will deliver myself of an address in which I will give my views of the desirability of a front porch campaign," Senator Harding added.

Following the thirty years' war in the 17th century German literature suffered a serious setback.

Cox's Opinion of Gore

The managers of Gore's campaign have filled Oklahoma with the following advertisement published first just after the adjournment of the San Francisco convention:

The Democratic National Convention at San Francisco ratified and approved Senator Gore's position in favor of ratifying the League of Nations with reservations. The Convention repudiated Ferris's position to ratify the League without reservations.

The platform adopted at San Francisco speaks for itself. But the nominee of that convention, Governor James M. Cox, speaking at the Jackson Day banquet in Washington City, January 8, had this to say of the poison squad who blocked the treaty in the senate:

"Yes, history will tell it all, and the name of the man who sensed the ills of the afflicted peoples of the earth, who sympathized with their honorable aspirations for freedom, and then wove the elements of simple justice into the fabric of international policy—his name will be chanted by the children of men yet unborn, while the names of those who made from their malignant spite, a senatorial cabal against Woodrow Wilson will have been consigned to a part and a place in the records of time, too unimportant for voice to recall or memory to retain."

Remember that Governor Cox was speaking of Lodge and Johnson and Gore.

COL. M'ALESTER OUT FOR FERRIS

FORMER LIEUTENANT GOVERNOR
AND HEAD OF CONFEDERATE
VETERANS WILL
CAMPAIGN FOR FERRIS.

McALESTER, July 14.—Col. J. J. McAlester, known and loved from one end of Oklahoma to the other, formerly lieutenant governor of the state and now commander of the Confederate Veterans of the state, will make a personal campaign in Pittsburg county in the interest of the candidacy of Scott Ferris, his health permitting.

Col. McAlester, who is still active, although weak from a recent attack of sickness, sat on the front porch of his home on the North Side yesterday afternoon and outlined plans for his campaign with as much enthusiasm as a boy would a fishing excursion.

"I feel that it is my duty to go out and tell the people what I know about Gore and I believe it is my duty to explain to them what a clean record Scott Ferris has."

"Heretofore I supported Gore because he was always promising something. I have contributed to his campaign funds in previous campaigns but never again. I have found out what kind of a man he really is."

"And I didn't take his war record to prove it either. Of course that's bad enough and should be enough to ruin him in the eyes of self-respecting voters, but he's got no home record to brag about."

"He sends out a lot of literature which may fool some of the fellows who don't really know, but there is nothing to him. I have never known him to do anything of any consequence for the farmers he claims to be such a servant to."

"He acted such a fool during the war that I don't think anybody ought to support him."

"He hasn't been loyal to his party or to his government."

Col. McAlester plans to cover Pittsburg county during the last 10 days of the campaign.

GERMANY MUST MAKE GOOD OR GO TO WAR AGAIN

SPA, Belgium, In an effort to compromise the differences between the Germans and the allies over the question of coal delivery by Germany and to prevent a break of the conference here, a series of informal conferences were arranged early this afternoon.

Premier Lloyd George received Dr. Walter Simons, the German Foreign Minister, at the latter's request, this afternoon, and told him emphatically the allies were not bluffing.

"The allies," Lloyd George declared, "intend seriously to take measures for enforcement of execution of the Versailles treaty, unless the Germans meet the allies' modified terms regarding coal."

The Netherlands government is experimenting with wooden soled shoes for its soldiers.

WEATHER

Tonight and Thursday partly cloudy to cloudy. Probably thunder showers.

Two Years Ago Tonight

Just two years ago tonight the German armies began at midnight their last drive towards Paris. It was the first drive they had undertaken against an American army. It was the last drive they ever undertook against any army. It was the night of Bastille Day, the national holiday of the French. The people of the French republic were celebrating the 129th anniversary of the storming of the Bastille, from which anniversary is dated the beginning of Gallic freedom.

The German high command hoped that the French armies would be demoralized by the celebration and consequently off their guard. Hence the army of the Crown Prince was hurled at the allied lines.

The German artillery was to open at midnight. For four hours and twenty five minutes the French and American units were to be smothered by a whirlwind of shells. Then the hordes of Prussia were to sweep through the shattered lines to Chalons certainly—to Paris possibly.

But the German plans had been discovered. On the night of the 13th a French raiding party had captured two German prisoners. These had told the German scheme to the French officers. Consequently the allies were ready. They knew when the enemy artillery fire was to open. They knew how long it was to last. They knew when they were to meet the Prussian guards in the iron grip of war.

At five minutes before midnight the French and American artillery East of Rheims opened fire. They beat the Germans to it by five minutes. The chalk hills of the Champagne heaved and moaned under the shock of one of the heaviest blasts of cannon ever heard on the continent. The German divisions massed for the assault were caught in a storm of steel and fire. Whole divisions were wiped out. When the remnants advanced to the charge they were annihilated. The Rainbow division fighting with Gouraud's army at a village called Perthes stopped seven successive assaults of the Prussians and never yielded an inch of ground.

West of Rheims the allied lines yielded ground slowly. The German legions crossed the Marne and advanced slowly towards Paris. Then they struck the Marines and the American regulars. Then came Chateau-Thierry, Belleau Wood, and the Second Marne. The Hunnish hordes were hurled back upon their base. The tides of war had turned. The race between Ludendorff and Wilson had ended and the prize was safely in American hands.

Two years ago tonight at midnight the last bid for a decision was undertaken by the armies of the Hun.

GERMANS AND ALLIED HEADS FAIL TO AGREE

By the Associated Press
SPA, Belgium, July 14.—Field Marshall Wilson of Great Britain who was summoned here yesterday by the Supreme Allied Council, after the German delegates engaged in the conference in this city had rejected the allied solution of the coal delivery problem, is expected to arrive here tonight. He is expected to confer immediately with Marshal Foch of France, who also was summoned by the council and with the allied premiers.

Konstante Scherbach, head of the German delegation here and Dr. Simons, Germany's foreign minister proposed to the allied government that they send an allied commission, composed of ministers and experts, to London to meet working men and their representatives for the purpose of talking over the necessity of increased coal production.

THE RAINBOW VETERANS HOLD FIRST REUNION

By the Associated Press
BIRMINGHAM, Ala., July 14.—Col. Mathew A. Tinley of Council Bluffs, Iowa, commander of the 168th Iowa regiment in the World War, was elected president of the Rainbow Veteran's Association at its first reunion here today. Cleveland, Ohio, was selected as the next convention city.

GERMANY MUST DELIVER TWO MILLION TONS

By the Associated Press
SPA, Belgium, July 14.—No disposition was shown by Chancellor Scherbach and former Minister Simons to yield to the allies on the question of coal deliveries. "The German delegation regrets that the conference may be dissolved without further agreement," said Dr. Simons to the correspondent, "but we have done as much as we could and await the action of the allies."

The allied ministers appeared equally firm in their decision that Germany shall deliver two million tons of coal monthly.

FRANCE CELEBRATES TAKING OF BASTILLE

By the Associated Press
PARIS, July 14.—France today celebrated the 131st anniversary of the taking of the Bastille. Artillery and infantry estimated to number 41 thousand, marched through Paris to the Vincennes race track, where they participated in a great review. All the buildings of Paris were flag bedecked. The French and American flags were entwined with the colors of the allies.

British experimenters have obtained a ton and a quarter of fuel oil by carbonizing 20 tons of cannon coal.

OPERATES ON HUMAN BRAIN

JOHNS HOPKINS DOCTOR SOLVES
PROBLEM OF BRAIN OPERATIONS
FOR VARIOUS
DISEASES.

BALTIMORE, Md., July 14.—Dr. Walter E. Dandy, young surgeon of Johns Hopkins Hospital, has planted the flag of American achievement in the center of the human brain.

The brain, center of human activity and the most delicate and sensitive organ of the body, has presented science with the most baffling problems in the past. Ordinary brain operations have been made simple but to reach the very center of the mass, the Third Ventricle, without killing the patient, was impossible until Doctor Dandy, after three years' experiment on lower animals—monkeys mostly, found the way.

What does it mean?

Removal or Cure? It means that epileptics may be cured and that many an insane man may be brought back from the asylum. It means that paralytics may be given the use of their bodies.

These ills are often the cause of brain tumors or "splints." Doctor Dandy lays open the way for their removal, or cure.

He has successfully operated upon the brains of men and recently removed a tumor from the Third Ventricle which restored the speech of a dumb man.

The operation is made in three stages so that the patient will not be killed by the sudden shock of laying bare the twists and turns of his "gray matter."

Skull is Opened.

First the skull must be opened. The bone is bored thru with "trepanning" instruments and then the "water" in which the brain rests, is withdrawn to release the pressure that might damage the brain. It is a delicate job to tie or "ligate" the blood vessels to prevent hemorrhage, or undue bleeding.

The second stage finds the surgeon's knife thru the "carpus callosum" or "large body" which connects the two parts of the brain. This in itself is a difficult task.

The third and final operation is the exposing of the Third Ventricle and the removal of the obstructing tumor.

Holes Bored in Skull.

The great obstacle to the operation in the past was the treatment of the brain, accustomed to rest in its fluid, when that fluid was withdrawn. The slightest damage resulted in paralysis or death of the patient.

Doctor Dandy solved the problem by boring one or more holes in the base of the skull thru which purified air is pumped into the brain channels.

THE OLD REGIME IS OVERTURNED BY BOLIVIAN

By the Associated Press
LIMA, Peru, July 14.—Dr. Jose Maria Escallier, chief of the republican party of Bolivia, which is reported to have overthrown the Guerra government, told the Associated Press that he planned to return to Bolivia within a week, having received dispatches that the revolution had been successful in three of the principal Bolivian cities, Lapaz, Aruro and Potosi.

The revolution in Bolivia, if successful, seems likely to change the complexion of South American international politics.

He said the Bolivian national policy, under the new government, would follow the lead of the United States regarding the league of nations.

While the army has apparently joined the revolution and imprisoned President Guerra and his cabinet, he said, this is fundamentally a popular uprising for the restoration of the freedom of the press and other liberties.

MORE COTTON ON HAND THIS YEAR THAN LAST

By the Associated Press
WASHINGTON, July 14.—Cotton consumed during the month of June amounted to 551,000 bales of lint and 33,056 bales of linters. During June a year ago 474,330 bales of lint and 15,038 of linters consumed.

Cotton on hand June 30th in custom establishments was 5,554,923 bales of lint and 27,171 bales of linters, compared with 1,363,049 bales of lint and 263,044 of linters a year ago.

Cattle food invented by a Dutch scientist is manufactured from albumen obtained from slaughter houses and fishing centers and potato and fruit refuse.

Scouts Thank The News

Dallas, Texas, July 13, 1920.

Mr. Marvin Brown,
Editor Ada News,
Ada, Oklahoma,

My dear Mr. Brown:

I have just gone over Mr. MacLain Wilson's reports of the successful Boy Scout Campaign in your city. I wish to convey to you in behalf of the National organization, the heartiest appreciation of your editorial and reading space your paper lent to the campaign.

It seems to me that the biggest business of any city is that of building boyhood. The press of the community can always be of very great assistance. However, it is most unusual for an editor to throw the tremendous force of his paper squarely behind a thing as you did at Ada.

My hope is that Ada and Pontotoc County will exceed our fondest expectations in returns for the investment of time, labor and good will, which you good people have put into it.

Yours very truly,

J. P. FITCH,
National Field Scout Executive

COMMERCIAL AVIATION HERE

SOUTHWEST AND PACIFIC COAST STATES NOW LEAD IN NEW FIELD OF AIR TRANSPORTATION.

By the Associated Press
NEW YORK, July 14.—Commercial aviation in the United States shows a healthy, steadily growing popularity, says the Manufacturers Aircraft association in making public here today the report of representatives who have just completed a tour of the country which included inspection flights over most of the territory now served by aerial transport.

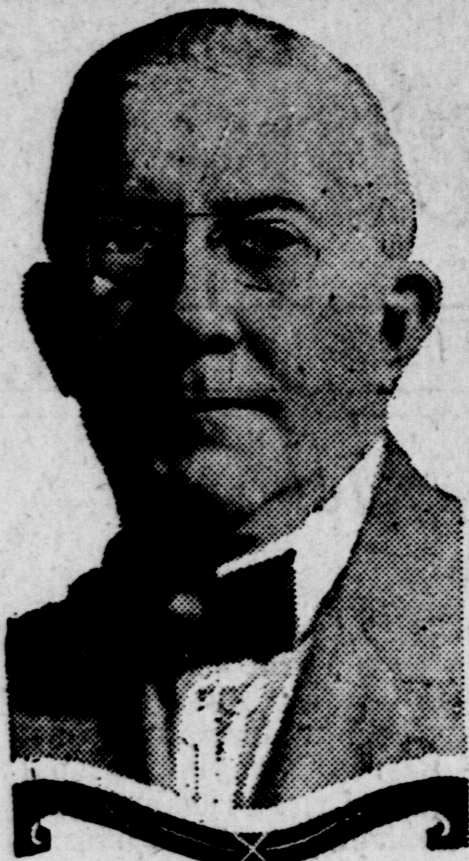

"The airplane is undergoing the same development experienced by other vehicles of transportation introduced to the public, the various sections of the country according to their individual topography, customs and natural resources," the report said.

"The southwest and Pacific coast are leading in the adaptation of aircraft to commercial use and plans in preparation contemplate honey-combing that area with a network of aerial transportation lines. In the middle west the airplane is being adopted as the occasion demands, and it is meeting with encouraging success, the severe competition of good railways and highways, the lack of landing fields and the considerable indifference of the middle Atlantic states, New England is accepting it with customary conservatism; the south is using it mainly for private purposes, and Florida and the West Indies have come to recognize flying as a most important method of communication.

"At present there are in the United States 15 manufacturers of aircraft motors and 85 manufacturers of accessories. During the past few months 20 new airplane distributing agencies have been established throughout the country and new aerial transport operating companies have been formed in New York City, San Francisco, Long Beach, Hollywood, Los Angeles, Oakland, Stockton, and Alameda, Calif., Minneapolis, Minn., Philadelphia, Bluefields, W. Va., Bettendorf and Shreveport, La., Ponca City, Okla., Seattle and Spokane, Wash., Detroit, Mich., Arkansas City, Ark., Bridgeport, Conn., Aurora, Ill., Fargo, N. D., Cincinnati, Ohio, Newell, S. D., Birmingham, Ala., Asbury N. J., Livingston, Vt., Brooklyn and Sprague, N. Y., and Rahway, N. J.

"Aviators are convinced of the

TAMMANY LEADER IS UNDER INDICTMENT

Charles F. Murphy

Charles F. Murphy, Tammany Hall leader, and five other persons are under indictment in New York on a charge of conspiracy to defraud the U. S. by falsifying income tax returns and attempted intimidation of Louis N. Hartog, a wealthy manufacturer, through criminal prosecution. One of the other five is Assistant District Attorney James E. Smith, a central figure in the "vice war," between

practicability of establishing passenger and express lines throughout the entire Pacific coast, which, roughly speaking, consists of two great mountain ranges and series of valleys. The plans for such lines now in preparation, contemplate connecting San Francisco with Los Angeles, San Francisco with Del Monte, San Francisco with Portland, Ore., over the Cascade range, and Portland with Tacoma and Seattle, Wash., with an almost certain extension of this line eastward to Spokane. A 10 passenger airplane service already is in operation between San Francisco and Los Angeles and a seaplane mail and package express line between Seattle and British Columbia points will begin operations within a few weeks.

"At present there are some 150 airplanes in commercial use in California and 50 more in Oregon and Washington, while a number equal to that of California are in operation in Texas. Most of the machines in Texas are privately operated by persons who made fortunes in oil, but contracts recently were let for

aircraft to be used in transporting supplies between cities and the oil fields. Mining and oil companies desiring emergency supplies or the replacement of special tools have come to depend upon the airplane which, with the level lands and natural landing fields of the country and the long distances over which the railroads are unable to make quick time, has provided an impetus to commercial adoption of the airplane in Texas.

"A score of flying boats are in operation on the Mississippi and other rivers of the middle west, and 15 on Lake Michigan, with every indication pointing to a substantial increase of the number before winter. Negotiations also are under way for 10 American built flying boats of the recently produced 12 and 18 passenger type for use over the Great Lakes and the St. Lawrence River.

"Two companies that last winter operated a flying boat from Florida to Bimini, Havana and Nassau, and carried more than 3,000 passengers, are now employing between 10 and 15 machines in a fairly regular service between New York, Boston and Atlantic City. Both of these operating companies have been financially successful and have announced that they will double their equipment this winter."

HARDING IN SECLUSION TO PREPARE HIS SPEECH

MARION, Ohio, July 13.—Senator Harding went into seclusion today in order to work on his speech accepting the republican presidential nomination. In order that he might give his entire attention to it, no conferences were scheduled and even newspaper correspondents were to see him only once, instead of the customary interview.

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

WHEN GORE WAS THE FARMER'S FRIEND

If there is a farmer in Pontotoc County who is tempted to fall for the well-known campaign bunc that "Gore is the farmers' friend," he ought to read the letter of J. J. Shea of Tulsa recently published in the Tuisa World. Shea is appealing to the oil men of Oklahoma to support Gore and in his letter gives reasons why every oil man should vote for the junior senator. His reasons pour a bright light on this friend of the farmer stuff.

Mr. Shea is no ordinary oil speculator but is the head of the oil lobby at Washington. Speaking of his activities at the national capital he says:

I had the honor to represent the producers of oil in the matter of federal taxation from November, 1917, up to the present time, and in that capacity I came in contact with the men in both houses in congress who have to do with the tax legislation and who prepared and enacted all the tax bills under which the revenue of the government has been collected.

Thus we see that at the time the government was busy enacting legislation to carry on the world war Mr. Shea was at the national capital to see that the oil men carried as little of the war burden as possible. Let Mr. Shea tell who helped him transfer a part of the burden from the oil men to other citizens of the country.

After the bill went to the senate it was referred to the finance committee of that body. The present United States senator, Hon. Thos. P. Gore, was and is a member of the finance committee of the senate, and immediately took a deep and lasting interest in OUR welfare and went his length to see that we received just treatment.

Just what the just treatment was that the wealthiest class of Oklahomans received shall be told by the oil men's lobbyist, Mr. Shea.

A few of the things that were written in that bill largely through the instrumentality of Senator Gore are as follows:
FIRST—Valuation of property, March 1, 1913, for depletion purposes.
SECOND—Valuation of new discoveries since 1913, at the time of discovery as a basis of depletion.
THIRD—A 20 per cent tax on sales in lieu of the surtax on the same. Senator Gore was also instrumental in preventing the laying of a two cents per gallon tax on gasoline and thru his efforts kept that tax out of the 1918 bill.

We see a few things that Senator Gore did to the revenue bill. We shall see what the bill did for the oil men and others.

The enactment of the 1918 law saved millions of dollars of unjust taxes to the producers of oil throughout the United States and it was no simple thing for Senator Gore to devote the months of steady, resolute, and comprehensive work he gave to that bill.

There you have it. Millions of taxes were lifted from the shoulders of oil men and placed on the shoulders of farmers and laborers and business men. The burden of the millionaire was lightened by millions of dollars. The burden of farmers was increased by millions of dollars. The addle pated joy rider was saved two cents a gallon on gasoline but the burden was simply transferred to the man in the corn rows.

That revenue bill was written to raise money to win the war. Billions had to be raised. If one class didn't pay, another class had to pay more. Millions were saved to millionaires and joy riders, but those millions had to be paid by those who have neither millions nor automobiles. While that bill was being written and the burdens were being apportioned Senator Gore, "the farmer's friend" was devoting months of resolute and comprehensive work to "our interests."

In closing his appeal to the public Mr. Shea, chief of the oil lobbyists, says:

I feel this matter very deeply and I think it would be the height of ingratitude on the part of the men engaged in producing oil—to fail to return Senator Gore at this election.

Thus a part of the record is written. Senator Gore worked for months to save millions for the millionaires. But the inevitable question arises: "Who paid the millions that the millionaires were exempt from paying?" Where in the record will you find that Senator Gore by months of resolute and comprehensive work saved millions to the farmers that the oil men had to pay?

A SPLENDID RECORD

According to State Auditor Carter Oklahoma will not have to levy any state tax this year for purposes of state government. The gross production tax on oil and gas, the income tax, the corporation license tax, etc., will furnish sufficient funds to run the state without the necessity of levying any ad valorem tax. For the first time in the history of Oklahoma it is found unnecessary to levy an ad valorem tax to operate the state government.

This is a gratifying showing and will be welcome news to the people who pay taxes. It will also be gratifying to the officials charged with governing the state. It is said on the best authority that the state's finances are today in the best condition they have been since statehood. For such a pleasing showing Governor Robertson and his co-adjutors deserve the thanks of the people.

BIG CUP RACE ON TOMORROW

SANDY HOOK WILL BE SCENE OF WILD EXCITEMENT WHEN BOATS START THEIR CONTEST.

By the Associated Press

NEW YORK, July 14.—The first race in 17 years for America's cup will start Thursday off Sandy Hook the contesting boats being the cup defender Resolute, and the challenger Sir Thomas S. Lipton's Shamrock IV. It may be interesting at this time both to yachtsmen and to a great many who are not acquainted with this form of sport to read a few facts in connection with this historic yachting trophy. To begin with the America's cup at first was not an international trophy. In fact it had no significance other than being a prize offered by the Royal Yacht Squadron for a race around the Isle of Wright, England, which was open to all nations. In August 1851, the schooner pacer America, owned by Commodore John I. Stevens and four other members of the New York Yacht club, won this race and the cup became their property. Six years later, Commodore Stevens and associates conveyed the prize to the New York Yacht club in trust as a perpetual international trophy which has since been known as the America's cup, taking its name from the schooner yacht which won it in British waters.

The first race for the America's cup, as an international prize, was held on August 8, 1870, over the regular course of the New York Yacht club in New York's lower bay. The challenging boat was Cambria, owned by James Ashbury of the Royal Yacht Squadron, Eng., and the cup was defended by practically the whole fleet of the New York Yacht club. That, however, was the only race in which the challenger ever had to sail against a fleet and the only contest in which the issue was decided by a single race. Cambria, by the way, finished tenth in that event while the old America finished fourth, the race being won by Magic, the yacht Idler finishing second.

In all there have been twelve contests for the Cup, in the second of which Mr. Ashbury challenged with the schooner Livonia and the New York Yacht club agreed to defend the trophy with only one boat in the race. The 1871 contest was the best four out of seven races. Livonia won a single race owing to the steering gear of the defender Columbia breaking down. Only twice since that day, October 19, 1871, has a challenging yacht crossed the finish line ahead of the defending boat. On September 10, 1895, Valkyrie III, after following the defender finished 1 minute and 16 seconds ahead of the American boat and on October 4, 1901, Shamrock II, finished two seconds ahead of Columbia but lost to the defender by virtue of conceding 42 seconds time allowance.

In the races of 1876, 1881, 1885, and 1887, the contests were decided on the basis of the best two out of three races. From 1893 to the last race in 1903 the agreement was for the best three out of five races.

On only three occasions has one of the competing yachts for the America's cup failed to finish. In the last race of the 1895 contest, Valkyrie III withdrew immediately after crossing the starting line. On October 17, 1899, Shamrock lost her topmast and withdrew in the second race of that year and on September 3, 1903, Shamrock II did not finish in the final race of the series as she was already beaten and had nothing to gain by continuing.

Just once in the history of the cup races has a competing been disqualified. This was in the second race of the series of 1895 when Lord Dunraven's Valkyrie III was disqualified for fouling the Defender.

The fastest time ever made in a race for the America's cup credited to the old schooner Columbia, On October 18, 1871, the day before she was defeated by Livonia, she sailed 20 miles leeward and windward 40 miles in all in 3 hours, 1 minute and 33 seconds. It must not be inferred, however, that the Columbia was the fastest yacht that ever sailed for the cup. There is no method of determining the relative speed of two or more boats other than by the results of a race in which they sail together. When Columbia made the fast time referred to undoubtedly the conditions of wind, weather and sea were most favorable.

The fastest time ever made on a 15 mile course straight away and return, 30 miles in all is credited to the defender Vigilant. In a race on October 13, 1893, she covered the course in 3 hours, 24 minutes and 29 seconds.

The fastest time in a triangular race for the cup was made by Columbia on October 3, 1891, the time for the distance, thirty miles, being 3:30:18.

In the first three contests for the cup the challenging boats were schooners and the defenders for the second and third also were schooners. In all other contests, however, the yachts have been sloops or cutters.

The smallest challenger in the history of the cup race was Atlanta, which was built at Bellville, Ontario, Can., in 1881. She measured 64 feet on the water line and a contest.

The first yacht ever built especially to defend the trophy was Pocahontas. This was in 1881. Prior to that year the New York Yacht club had selected from its

fleet the yacht considered to be best suited for the purpose. Pocahontas did not come up to expectations and was rejected in favor of Mischief, one of the finest sloops of the fleet. Since that year, however, new defenders have been built for every contest.

There were two candidates for the honor of defending the cup in 1885, two in 1886 and four in 1893, and in every contest, excepting one since the race between Atlanta and Mischief the cup has been defended by a yacht built for that particular race. The one exception was in 1901 when Constitution built for the race of that year was discarded in favor of Columbia which successfully defended the trophy in 1899.

Hopping Counters Is Worse Than Selling Bevo Says Salesman

That salesmen get blue and want to catch a long "slow freight train and ride," as evidenced by the statement made today by Harry Reed, popular young salesman in the Dunlap Bros. store.

Harry appeared rather blue this afternoon and declined to give out any information, other than that Dunlap had 20 stores in this state and today only had 19, due to the fact that business was "rotten" in the store in this city.

A lady salesman, somewhat older than this young man, told a News reporter that the best looking salesgirl was leaving the city for a few days' visit and that this was the cause of Harry's looking downhearted and feeling bad.

"I would get a job selling Bevo on the road but you see a fellow might get blue and start to hard drinking," said Harry as he stumbled over a stack of overalls. "No, this is the life for me, hopping over these counters and lookin' 'em over as they come in."

J. N. Morgan of Ardmore Dead
J. N. Morgan, an old citizen of Ardmore, died yesterday in a sanitarium there. He was well known to several people in Ada and had the reputation of an upright man. At one time he was connected with the Woodman Lodge as an organizer and worker.

CHURCH OF CHRIST HOLD MEETING

LARGE CROWDS IN DAILY ATTENDANCE; MEETING HELD ON MAIN IS PROVING SUCCESSFUL.

The meeting being conducted by the Church of Christ is growing in interest. Last evening's meeting was held in the grove just back of the church house where it was delightfully cool. Day services are fine at 10 o'clock each morning.

It was stressed by the evangelist that it was not so important as to one's life today, how he lives. This, declared the preacher, is not the most important thing. But above

everything else, one should be sure that he has surrendered to Christ; that no nook or corner of his heart is reserved in making that surrender; that it must be a whole, hearted surrender without "reservations." Mr. Armstrong said that church members who professed to follow Christ were in a large measure only following in those things that were pleasing to them; that church members did not hesitate to set aside the plain life of Christ whenever it was to their interest to do so. It was affirmed by the evangelist that while no one singly would set aside the whole example of Christ, jointly the members of the churches who claimed to be his followers were actually doing that very thing daily.

Mr. Armstrong appealed to women to apply the principles of Christ in the furnishing of their wardrobes. He said that no Christian school girl had a right to leave the making of that commencement

dress to a worldly mind to dictate how long should be the skirt or how low the neck. The speaker declared that the morals of their sweethearts, brothers, husbands and fathers were involved.

On the first "leaf" in the book of His marvelous life the speaker found Christ's perfect submission to the will of the Father. It was shown that Jesus came down from heaven to do the will of Jehovah, and that this makes it the mission on earth to every follower of Christ to do that will.

The lesson was timely and no one who wants to be a better man or woman or that wants a better town to live in can afford to miss these lessons.

Another great lesson is awaiting those who attend tonight. Good singing conducted by Mr. Tedlie, faithful preaching of the word of God, all in the cool, are the special attractions to this meeting.

Midsummer Days.

With the ripple of leaves and a tinkle of streams
The full world rolls in a rhythm of praise,
And the winds are one with the clouds and beams—
Midsummer days! Midsummer days!

The dusk grows vast; in a purple haze,
While the West from a rapture of sunset rights,
Faint stars their exquisite lamps upraise—
Midsummer nights! O midsummer nights!

The wood's green heart is a nest of dreams,
The lush grass thickens and springs and sways,
The rathe wheat rustles, the landscape gleams—
Midsummer days! Midsummer days!

Married.

Announcements have been received here of the marriage of Harry Schienberg to Miss Ruth Hankins in Chicago on July 2nd.

Both parties are well and favorably known in this city and have many friends who wish them much happiness and prosperity.

Miss Hankins was formerly an instructor in the East Central State Normal of this city and is reputed to be a splendid musician.

Mr. Schienberg is the son of Mr. and Mrs. B. Schienberg of this city and was connected with his father in business in this city until recently. He left this city and was attending school in the city of Chicago up to the time of his marriage to Miss Hankins.

The couple will make their future home in Chicago.

Personal Mention

Tom D. McKeown attended the picnic at Atwood today.

Mrs. D. T. Blair of Stonewall is here visiting friends.

Miss Eleanor Wilkerson of Sherman, Texas, is visiting Miss Fay Laird.

Miss Lee Mossman of Okmulgee is visiting in the city with Miss Lettie Rock.

Mrs. O. J. Wilson of Henryetta, is here visiting her parents, Mr. and Mrs. Ed. Runyon.

Mr. and Mrs. J. L. Barringer left yesterday for Ardmore where they will visit friends.

W. W. Sledge returned yesterday from Sulphur where he has been enjoying a short recreation.

Er. L. Read is leaving today for Sulphur where he will meet his rougher.

Mr. and Mrs. L. Jacobson and family of Amerillo, Texas, are visiting in Ada with S. Jacobson and family.

Mrs. George Current has just returned from several weeks spent in visiting in Fort Scott and Neodesha, Kansas.

Mrs. J. L. Barringer and Mrs. Tom D. McKeown have just returned from an overland trip to Colorado Springs.

Misses Grace Harrison and Edith Villines of Maud left yesterday after visiting Miss Allie Drain. They left here to visit with friends in Wetumka.

P. H. Deal returned today from Lonoke, Arkansas, bringing his father, P. S. Deal, with him. The latter will visit in Ada for some time.

Miss Nora Adair of McAlester is in the city visiting her parents; Mr. and Mrs. J. L. Adair. She has just returned from Sulphur where she has been resting up.

Miss Carrie Will Coffman of Holdenville, departed for her home this morning after a pleasant visit with Miss Leone Steed, an old O. U. friend.

John Craig and Plez Ferris left this afternoon for Connorsville, the home of the latter. The two were one time old foot ball players in East Central. Mr. Craig will visit awhile and get a taste of farm and ranch life.

R. H. Weisner, manager of the Western Union office in Ada, is away for a two weeks vacation at Hot Springs, Arkansas. His place is being filled temporarily by G. B. Goodwin, relief manager of the Western Union.

Mr. and Mrs. R. W. Simpson entertained last evening with a dinner-dance honoring Miss Mildred Reed of Ardmore, the house-guest of Miss Callie Brown. A detailed writing of the affair will appear in the issue of tomorrow.

Mrs. Leon Scott of Muskogee, left for her home today after visiting her daughter, Mrs. Joe Foster, and granddaughter, Mrs. Ed Stewart. Also Mrs. M. A. Turnbo, granddaughter of Mrs. Ed Stewart, accompanied Mrs. Scott to Muskogee.

As indemnity for the Franco-Prussian war France had to pay Germany five billion francs within three years.

YELLOW ORGANDY IS POPULAR THIS SEASON

By Elotse.

Pink and blue may be old favorites and orchid may be one of the most popular shades for the 1920 summer, but a certain bright, clear yellow is undoubtedly the most fashionable of summer shades and it prevails in almost every type of wear, hats, hose, frocks, skirts, blouses, neckwear, handkerchiefs and parasols, and of course sweaters. It is a treacherous color, however, and care should be taken by those who wish to wear it. The yellow, the pale and the gray-haired woman should avoid it as she would a new wrinkle. Dark girls, particularly the highly colored ones, may wear this new color with ease and assurance.

What could be more daintily feminine than this ruffled gown of a sheer yellow organdy? It is a youthful model with vertical ruffles on the skirt which gives the effect of long lines even though the skirt is full and bouffant in effect. Tiny puff sleeves, a round neck and a wide crushed girdle are the other features worthy of comment. It makes a very charming frock for summer dances or garden parties.

Oak Avenue B. Y. P. U. Social
The senior B. Y. P. U. of the Oak Avenue Baptist church gave a social last night at the home of L. Warr on West 9th street. The affair was in honor of Miss Mabel Clark, a faithful member of the organization, who is going to begin teaching school Monday at Byrd's Mill.

About 75 young people were reported in attendance and to say that they had a good time is putting it mildly. A riddle game was played on the porch and in front of the house.

Refreshments, consisting of fruit, ice cream and cake, were served. The young people departed at a late hour feeling that the evening was indeed well spent.

Mr. W. H. Ledbetter, of near Shreveport, La., is in the city the guest of his son, T. R. Ledbetter, 428 W. 13th street. The old gentleman has lived out his allotted three score and ten years but looks as though he was good for several more. He paid the News office a pleasant call this morning.

NEW FUSION PARTY MAKES LITTLE PROGRESS

By the Associated Press

CHICAGO, July 14.—Little progress was made by the new fusion party during the first two hours of its convention today and an undercurrent of dissatisfaction was in evidence throughout the meeting. It once more required the pleas of leaders and constant conferences to keep breaks from cropping out. The platform was not ready for presentation and the convention was occupied with minor details of business. The committee of Forty-eight at an early morning caucus decided to continue its state and national organization regardless of the action of the present convention and to meet separately tonight to consider the convention's actions.

Senator LaFollette was still being represented in platform conferences, but there were few indications of what was being done.

At 11:45 the platform committee ordered the typing of a third version of a fusion party platform and sent word to the convention that it would report at 1:00 p. m. The convention adjourned until that time.

Thieves entered the Keltner Wholesale Grocer Co., storeroom last night. Nothing of value, with the exception of a few cigarettes were missed by officials of the company. The work is evidently that of small boys and entrance was gained to the building by breaking out a window in the transom.

New arrivals of fancy autumn suits now on display at Simpson's 7-14-ltd.

Pavement Pickups

Ladies! Have you seen those new autumn suits at Simpons? 7-14-ltd

John Flowers left today for campaign business in Roff.

First showing of new autumn suits for women at Simpons. 7-14-ltd.

Miss Jessie Rogers left this afternoon for business in Roff.

Cecil Deal is in the city for a short visit. He is on the road now representing an art company.

Clean rags for bandages and wash cloths will be greatly appreciated by the Faust Hospital. 7-13-ft.

An American scientist sent to Greece to investigate agricultural conditions discovered extensive and heretofore unknown deposits of potash and lime.

Mrs. C. S. Anderson, 423 E. 13th. Phone 968. Official collector for Pontotoc County Medical Association. 6-1-ft

L. E. Pettigrew arrived in Ada on the Frisco this morning.

R. L. Rollins of the Bebee community was in Ada today. He confirms the usual reports of good crops. Corn is very good, he states and cotton is not being bothered by boll weevils in that section. Cotton, however, will be somewhat late this year.

Grant Irwin Shows The Natives a Real Buick Auto Today

Mr. and Mrs. Grant Irwin have just returned from Oklahoma City where they purchased a Buick roadster from the distributors in that city.

They made a very successful return trip in this car and Mr. Irwin stated that this car performed in a most perfect manner. It is the latest improvement or motor and without a question of doubt, the most beautiful car in this city in the roadster class.

Mr. Irwin is doing a splendid business with these cars and is making many friends over this section of the country with Buick automobiles, which are known throughout the country as being dependable and built of the best material.

This car is now on exhibition at the garage on the corner of 12th and Townsend and those who appreciate good-looking cars should call and inspect this new roadster.

Tongs gripping their necks securely have been invented for carrying heavy bottles of liquids.

MARY PICKFORD TO SHINE AGAIN IN 'SUOS'

That Mary Pickford is the greatest artist of the screen will be demonstrated to everyone's satisfaction at McSwain's Theater in her appearance in her second United Artists Corporation production, "Suds," next Monday.

Much has been written and said

about Mary Pickford's artistic ability—how she can take her audience from laughter to tears and back again by the mere move of her hand and the expression of her wonderful features.

As Amanda Afflick, the little slavery in a French laundry in the slums of London, Miss Pickford is seen in an entirely different role in which she has heretofore appeared. Gone, except for occasional flashes, are the famous curls and beautiful clothes, and instead we have the scrawny, greasy faced, pug nosed frump which for quite a while is difficult to recognize as our beautiful Mary. This above anything she proves she is an artist, for very few of our women of the films would sacrifice beauty youth and clothes in order to give an artistic performance—but all this has Mary done, and more. But with her deft handling she makes this little nonentity of life a living breathing person—a type you have all seen but which you never cared to remember.

When Amanda tells the other girls in the laundry of her imaginary real station in life and describes scenes in her father's castle where Horace, her imaginary lover actually figuratively proves his devotion she had us screaming with laughter—and again, when the same little figure actually meets the lover of her dreams, and realizes that he would be ashamed to be seen with her in public, her audience was weeping copious tears.

THE BOLSHEVİK FORCES MADE FURTHER ADVANCES
By the Associated Press
LONDON, July 14.—Further advances by the Bolshevik in their campaign against the Poles are reported in Tuesday's official communique, received by wireless from Moscow today.

With the pan of porcelain, the case galvanized or enameled and the working parts immersed in oil, a new scale for creameries and dairies is rust proof.

In diamond mining the material from the mines is exposed to the elements and disintegrated.

BEMOANING OUR LOT
A lot of good time and energy is wasted by a lot of good people in bemoaning their lot. They pity themselves because the fates were against them. They conceive the idea that theirs is a special burden far heavier than that placed on their neighbor's shoulder.

We are all more or less guilty along this line. The fact however, clearly illustrated by one of Shakespeare's characters that remarked, "The fault, dear Brutus, is not in our stars, but in ourselves."

When you see a talented man who has made a success in his line, don't think that nature was partial to him. But, put it down that that man was tempted astray by powers as strong, proportionately, as the powers that led him to victory in life.

Emerson gave this thought when he said: "For every gift you receive a tax is levied."

Then don't show your littleness by whining. Stop salving your conscience with the delusion that you were created with such and such weaknesses. We can all be successful if we will to be.—O.V.M.

REGISTRATION NOTICE
The registration books are now open and will be open for ten days only. All who expect to vote must register in one of the following places:
1st Ward—Fire station,
Somer Jones.
2nd Ward—Hope-Conn Drug Co., T. O. Cullins.
3rd Ward—Ellis Furniture Store.
4th Ward—Davidson's Grocery, Ollie Davidson.
Capitol Hill—First National Bank, P. A. Norris.
Daggs Addition—Surprise Store, Charlie Floyd.

Ada Will Play Team From Henryetta Here On Sunday Afternoon

What promises to be one of the best games of the season is slated to be played in this city Sunday afternoon by the ball teams of Ada and Henryetta.

The local club has received several new men who proved to be good players as evidenced by the record made in the Tupelo-Ada game played here last Sunday.

Henryetta is the undefeated team of the northern part of the state and are reputed to have a very fast team. The game is to be called at 4 o'clock and those who wish to see a good game should be on time and secure suitable places in the grandstand and for parking for cars.

Hats cleaned and reblocked. Miller Bros. 6-5-ft

School Board Lets Contract for New Ward Building

Sam Hill of Ada has received the contract to build the new ward school building in the "South Ward." The contract price is \$64,720, which was \$2,780 less than the highest bid. There were five bids submitted to the school board.

The new building will be erected on the block purchased by the school board some time ago between Sixteenth and Seventeenth streets and between Oak and Ash avenues. Work will begin on the new building as soon as possible in the hope that the building may be finished in time to relieve the congestion in the various ward schools of the city.

The building is to be composed of pressed brick and will be constructed in such a manner that additional wings may be added to it later on without changing any of the walls.

COMMISSIONERS EXPLAIN BONDS

To the General Public:
At the primary in August of this year there will be submitted to you a proposition to vote \$225,000 court house bonds for Pontotoc county and \$400,000 road bonds for Pontotoc county, the said roads to be built on all the state highways of the county and connecting each town.

It has been brought to our attention that there is an impression among a few people of the county that in event the bonds are voted we will not be able to sell the same at their worth. The commissioners of the county desire the people to know that if the bonds are voted they will not be sold until the bond market becomes normal, and until they can be sold at their worth. Neither would the commissioners sell the bonds and attempt any work until the prices of material were reasonable. Our main object in submitting the bonds at this time is to save the expense of an election. By having the bond election at the primary in August the expense of the same will cost nothing so far as voting on the bonds is concerned, whereas if we waited a few months later and submitted this to a vote we would have to hold a special election in Pontotoc county, which election would cost a considerable sum.

We are making this statement so that the voters can understand the situation and so that they will know that if they decide to vote favorably for these bonds that the

commissioners will not sell the said bonds until the bond market is normal, and their full worth can be realized, and until the people can receive one hundred cents on the dollar for every dollar invested in material.

FIVE CENTS THE COPY

CONTRACT WARD SCHOOL IS LET

S. A. HILL AWARDED CONTRACT
FOR NEW WARD SCHOOL
AND WILL BEGIN WORK
AT ONCE.

On May 11th of this year the citizens of Ada voted bonds to the amount of \$75,000 to be used in erecting a school building somewhere in the south part of town. This building was proposed for the purpose of caring for the grade children in the south ward and thus eliminating the necessity of the smaller ones having to cross the railroad on their way to school. The school board also had in mind the accommodation of the children in Portland Park.

Soon after the bond issue the board of education employed the Jewell Hicks Architect Co. of Oklahoma City to draw up plans and specifications for the building. Also, the American National Bank of Oklahoma City was entrusted to care for the legal end of the bond issue.

The above named bank notified the board not long ago that the bonds would soon be available. The board then advertised for bids and set July 13th at 2 p. m., as the time for receiving bids and letting the contract for the construction of the building.

At the board meeting yesterday afternoon there were five bidders, all out of town men excepting Sam Hill. After consideration of the bids the contract was awarded to Mr. Hill. His construction price was \$65,310, the lowest bid of all.

The new building will be made of brick and reinforced concrete. It will be entirely modern and fire proof throughout. It will have two basement rooms for vocational work and five rooms on each of the other two floors for regular class work. Two of these rooms on the third floor will be so arranged as to be able to be thrown together for assembly purpose. Provision is also made for principal's office and teacher's rest room.

Mr. Hill will begin work as soon as possible on the building and it is expected to be ready for use by the beginning of the second semester of the coming school year. As stated before, it will accommodate all children in the south ward up to the junior high school grades.

The new school building will be erected on the block of ground between Oak and Ash avenues and 16th and 17th streets. This ground was purchased some time ago. The building itself will face 17th street.

That this building is a very pressing necessity is beyond all question with people who are familiar with conditions prevailing in the city. Are you aware of the fact that there were nine grades in our system last year that ran only on a half day basis? And did you know that there were some 400 children in our city last year who were not even enrolled in our school?

The compulsory law is going to be enforced next year according to the statement of Superintendent J. E. Hickman. The new building will only accommodate the overflow of those who attended last year. You can use your own mathematics and see what shape our schools will be in next year when the 400 un-enrolled pupils come in together with the natural increase because of increase in population. Superintendent Hickman states that probably half of the school will have to be run on a half day basis next year.

The school board and the city school administration in general wishes to thank the public for the support that has always been given. It is not that the public is not willing to do what is necessary, but that they don't understand. We can't expect a growth in population without a corresponding increase in school children.

NEW FUSION PARTY IN HARD STRAITS, SEEMS

By the Associated Press

CHICAGO, July 14.—Hopes for the survival of the new fusion party were at its tide today. After all night conferences of the new bodies, resolution committees today dragged along in an effort to get together on a platform acceptable to Senator La Follette.

The first evidence of a possible breaking up of the new party movement followed last night's session, when the single tax forces withdrew, adopted their own platform plank and nominated a presidential candidate. For president they chose Robert C. MacCauley, of Philadelphia, and for vice president they selected R. C. Barnum of Cleveland.

The birth of the new party yesterday, after five days of conferences, was attended by tumultuous scenes, in which more than once the flooding movement faced shipwreck on the rocks of jealousy and group antagonism.

Here is a late photo of beautiful Mary Pickford, the screen star with a world wide reputation. She appears in "Suds," her greatest production, at the opening of the new McSwain Theatre in this city next Monday.

COX WALLOPS SEN. HARDING

SAYS HIS TASK, IF ELECTED,
WILL BE TO BRING PEACE
WITH HONOR TO THIS
OLD WORLD.

By the Associated Press

COLUMBUS, Ohio, July 14.—Charging that Senator Harding, the republican presidential nominee, had made his "front porch a listening post," Governor Cox the democrat nominee, today issued a statement replying to Senator Harding's statement of yesterday, that the Wilson administration had saddled the League of Nations upon him as the chief campaign issue.

Governor Cox's statement said his campaign would be devoted to the "task of bringing peace with honor, of readjusting the affairs of civilization and of creating a new day out of which he will make the best of the lessons of the past."

"Senator Harding has made two definite announcements that he proposes to hark back to the days of thirty years ago, and that he will make of his front porch a listening post."

"My campaign will be dedicated to the task of bringing peace with honor."

By the Associated Press

MARION, Ohio July 14.—Senator Harding, when shown a copy of Governor Cox's statement issued today, in which reference was made to the senator's plan for a front porch campaign, said he saw nothing in the statement that justified any response. He also said that it was useless to enter into a "wire debate" with the democratic nominee.

"Some day I will deliver myself of an address in which I will give my views of the desirability of a front porch campaign," Senator Harding added.

Following the thirty years' war in the 17th century German literature suffered a serious setback.

BIG- REVIVAL MEETING HERE

MEETING OF THE NAZARENE
CHURCH IS ATTRACTING
MANY PEOPLE--MUCH
GOOD BEING DONE

By the Associated Press

Last night the big tent on the corner of 9th and Oak streets was filled and overflowing with people, and many were in cars at the edge of the lot.

The services started with songs, which were led by Mrs. Beasley, daughter of Rev. S. B. Dameron, pastor of the local Nazarene church. Mrs. Beasley has a splendid soprano voice and is far superior to any that have appeared in public in this city for some time. She has that masterful power of presiding over the song services that is indeed very creditable and is worthy of the co-operation of all people in this city who like vocal music.

Following the song service, Rev. Dameron made a short address and read a few passages from the Bible and introduced Rev. J. B. Chapman of Bethany, Okla., who delivered one of the best sermons that has been heard in this city for some time.

As a result of this beautiful sermon approximately fifteen people were converted and many others gave their hands to the pastor with the intention of seeking a better life.

Services are being conducted at this tent in the morning at 10 o'clock and in the evening at 8 o'clock and those who wish to hear good sermons and a splendid song service should avail themselves of the opportunity of attending the Nazarene revival.

By the Associated Press

GERMANY'S HANGMEN

LONDON, July 14.—The hangmen of Germany have gone on a strike for an increase in wages, says a Berlin dispatch to the Exchange telegraph today, quoting German newspapers.

Cox's Opinion of Gore

The managers of Gore's campaign have filled Oklahoma with the following advertisement published first just after the adjournment of the San Francisco convention:

The Democratic National Convention at San Francisco ratified and approved Senator Gore's position in favor of ratifying the League of Nations with reservations. The Convention repudiated Ferris's position to ratify the League without reservations.

The platform adopted at San Francisco speaks for itself. But the nominee of that convention, Governor James M. Cox, speaking at the Jackson Day banquet in Washington City, January 8, had this to say of the poison squad who blocked the treaty in the senate:

"Yes, history will tell it all, and the name of the man who sensed the ills of the afflicted peoples of the earth, who sympathized with their honorable aspirations for freedom, and then wove the elements of simple justice into the fabric of international policy--his name will be chanted by the children of men yet unborn, while the names of those who made from their malignant spite, a senatorial cabal against Woodrow Wilson will have been consigned to a part and a place in the records of time, too unimportant for voice to recall or memory to retain."

Remember that Governor Cox was speaking of Lodge and Johnson and Gore.

COL. M'ALESTER OUT FOR FERRIS

FORMER LIEUTENANT GOVERN-
OR AND HEAD OF CONFED-
ERATE VETERANS WILL
CAMPAIGN FOR FERRIS.

MALESTER, July 14.—Col. J. J. McAlester, known and loved from one end of Oklahoma to the other, formerly lieutenant governor of the state and now commander of the Confederate Veterans of the state, will make a personal campaign in Pittsburg county in the interest of the candidacy of Scott Ferris, his health permitting.

Col. McAlester, who is still active, although weak from a recent attack of sickness, sat on the front porch of his home on the North Side yesterday afternoon and outlined plans for his campaign with as much enthusiasm as a boy would a fishing excursion.

"I feel that it is my duty to go out and tell the people what I know about Gore and I believe it is my duty to explain to them what a clean record Scott Ferris has."

"Heretofore I supported Gore because he was always promising some thing. I have contributed to his campaign funds in previous campaigns but never again. I have found out what kind of a man he really is."

"And I didn't take his war record to prove it either. Of course that's bad enough and should be enough to ruin him in the eyes of self-respecting voters, but he's got no home record to brag about."

"He sends out a lot of literature which may fool some of the fellows who don't really know, but there is nothing to him. I have never known him to do anything of any consequence for the farmers he claims to be such a servant to."

"He acted such a fool during the war that I don't think anybody ought to support him."

"He hasn't been loyal to his party or to his government."

Col. McAlester plans to cover Pittsburg county during the last 10 days of the campaign.

GERMANY MUST MAKE GOOD OR GO TO WAR AGAIN

SPA, Belgium, In an effort to compromise the differences between the Germans and the allies over the question of coal delivery by Germany and to prevent a break of the conference here, a series of informal conferences were arranged early this afternoon.

Premier Lloyd George received Dr. Walter Simons, the German Foreign Minister, at the latter's request, this afternoon, and told him emphatically the allies were not bluffing.

"The allies," Lloyd George declared, "intend seriously to take measures for enforcement of execution of the Versailles treaty, unless the Germans meet the allies' modified terms regarding coal."

The Netherlands government is experimenting with wooden soled shoes for its soldiers.

WEATHER

Tonight and Thursday partly cloudy to cloudy. Probably thunder showers.

Two Years Ago Tonight

Just two years ago tonight the German armies began at midnight their last drive towards Paris. It was the first drive they had undertaken against an American army. It was the last drive they ever undertook against any army. It was the night of Bastille Day, the national holiday of the French. The people of the French republic were celebrating the 129th anniversary of the storming of the Bastille, from which anniversary is dated the beginning of Gallic freedom.

The German high command hoped that the French armies would be demoralized by the celebration and consequently off their guard. Hence the army of the Crown Prince was hurled at the allied lines.

The German artillery was to open at midnight. For four hours and twenty five minutes the French and American units were to be smothered by a whirlwind of shells. Then the hordes of Prussia were to sweep through the shattered lines to Chalons certainly--to Paris possibly.

But the German plans had been discovered. On the night of the 13th a French raiding party had captured two German prisoners. These had told the German scheme to the French officers. Consequently the allies were ready. They knew when the enemy artillery fire was to open. They knew how long it was to last. They knew when they were to meet the Prussian guards in the iron grip of war.

At five minutes before midnight the French and American artillery East of Rheims opened fire. They beat the Germans to it by five minutes. The chalk hills of the Champagne heaved and moaned under the shock of one of the heaviest blasts of cannon ever heard on the continent. The German divisions massed for the assault were caught in a storm of steel and fire. Whole divisions were wiped out. When the remnants advanced to the charge they were annihilated. The Rainbow division fighting with Gouraud's army at a village called Perthes stopped seven successive assaults of the Prussians and never yielded an inch of ground.

West of Rheims the allied lines yielded ground slowly. The German legions crossed the Marne and advanced slowly towards Paris. Then they struck the Marines and the American regulars. Then came Chateau-Thierry, Belleau Wood, and the Second Marne. The Hunnish hordes were hurled back upon their base. The tides of war had turned. The race between Ludendorff and Wilson had ended and the prize was safely in American hands.

Two years ago tonight at midnight the last bid for a decision was undertaken by the armies of the Hun.

GERMANS AND ALLIED HEADS FAIL TO AGREE

By the Associated Press

SPA, Belgium, July 14.—Field Marshall Wilson of Great Britain who was summoned here yesterday by the Supreme Allied Council, after the German delegates engaged in the conference in this city had rejected the allied solution of the coal delivery problem, is expected to arrive here tonight. He is expected to confer immediately with Marshal Foch of France, who also was summoned by the council and with the allied premiers.

Konstantine Scherbach, head of the German delegation here and Dr. Simons, Germany's foreign minister proposed to the allied government that they send an allied commission, composed of ministers and experts, to London to meet working men and their representatives for the purpose of talking over the necessity of increased coal production.

THE RAINBOW VETERANS HOLD FIRST REUNION

By the Associated Press

BIRMINGHAM, Ala., July 14.—Col. Matthew A. Tinley of Council Bluffs, Iowa, commander of the 168th Iowa regiment in the World War, was elected president of the Rainbow Veteran's Association at its first reunion here today.

Cleveland, Ohio, was selected as the next convention city.

GERMANY MUST DELIVER TWO MILLION TONS

By the Associated Press

SPA, Belgium, July 14.—No disposition was shown by Chancellor Scherbach and former Minister Simons to yield to the allies on the question of coal deliveries.

"The German delegation regrets that the conference may be dissolved without further agreement," said Dr. Simons to the correspondent, "but we have done as much as we could and await the action of the allies."

The allied ministers appeared equally firm in their decision that Germany shall deliver two million tons of coal monthly.

FRANCE CELEBRATES TAKING OF BASTILLE

By the Associated Press

PARIS, July 14.—France today celebrated the 131st anniversary of the taking of the Bastille. Artillery and infantry estimated to number 41 thousand, marched through Paris to the Vincennes race track, where they participated in a great review. All the buildings of Paris were flag bedecked. The French and American flags were entwined with the colors of the allies.

British experimenters have obtained a ton and a quarter of fuel oil by carbonizing 20 tons of cannon coal.

OPERATES ON HUMAN BRAIN

JOHNS HOPKINS DOCTOR SOLVES
PROBLEM OF BRAIN OPER-
ATIONS FOR VARIOUS
DISEASES.

BALTIMORE, Md., July 14.—Dr. Walter E. Dandy, young surgeon of Johns Hopkins Hospital, has planted the flag of American achievement in the center of the human brain.

The brain, center of human activity and the most delicate and sensitive organ of the body, has presented science with the most baffling problems in the past. Ordinary brain operations have been made simple but to reach the very center of the mass, the Third Ventricle, without killing the patient, was impossible until Doctor Dandy, after three years' experiment on lower animals--monkeys mostly, found the way.

What does it mean?

Removal or Cure? It means that epileptics may be cured and that many an insane man may be brought back from the asylum. It means that paralytics may be given the use of entire bodies.

These ills are often the cause of brain tumors or "splints." Doctor Dandy lays open the way for their removal, or cure.

He has successfully operated upon the brains of men and recently removed a tumor from the Third Ventricle which restored the speech of a dumb man.

The operation is made in three stages so that the patient will not be killed by the sudden shock of laying bare the twists and turns of his "gray matter."

Skull is Opened.

First the skull must be opened. The bone is bored thru with "trepanning" instruments and then the "water" in which the brain rests, is withdrawn to release the pressure that might damage the brain. It is a delicate job to tie or "ligate" the blood vessels to prevent hemorrhage, or undue bleeding.

The second stage finds the surgeon's knife thru the "carpus callosum" or "large body" which connects the two parts of the brain. This in itself is a difficult task.

The third and final operation is the exposing of the Third Ventricle and the removal of the obstructing tumor.

Holes Bored in Skull.

The great obstacle to the operation in the past was the treatment of the brain, accustomed to rest in its fluid, when that fluid was withdrawn. The slightest damage resulted in paralysis or death of the patient.

Doctor Dandy solved the problem by boring one or more holes in the base of the skull thru which purified air is pumped into the brain channels.

THE OLD REGIME IS OVERTURNED BY BOLIVIANS

By the Associated Press

LIMA, Peru, July 14.—Dr. Jose Maria Escalier, chief of the republican party of Bolivia, which is reported to have overthrown the Guerra government, told the Associated Press that he planned to return to Bolivia within a week, having received dispatches that the revolution had been successful in three of the principal Bolivian cities, La Paz, Aruro and Potosi.

The revolution in Bolivia, if successful, seems likely to change the complexion of South American international politics.

He said the Bolivian national policy, under the new government, would follow the lead of the United States regarding the League of Nations.

While the army has apparently joined the revolution and imprisoned President Guerra and his cabinet, he said, this is fundamentally a popular uprising for the restoration of the freedom of the press and other liberties.

MORE COTTON ON HAND THIS YEAR THAN LAST

By the Associated Press

WASHINGTON, July 14.—Cotton consumed during the month of June amounted to 551,000 bales of lint and 33,056 bales of linters. During June a year ago 474,330 bales of lint and 15,038 of linters consumed.

Cotton on hand June 30th in custom establishments was 5,554,923 bales of lint and 27,171 bales of linters, compared with 1,363,049 bales of lint and 263,044 of linters a year ago.

Cattle food invented by a Dutch scientist is manufactured from albumen obtained from slaughter houses and fishing centers and potato and fruit refuse.

Scouts Thank The News

Dallas, Texas, July 13, 1920.

Mr. Marvin Brown,
Editor Ada News,
Ada, Oklahoma,
My dear Mr. Brown:

I have just gone over Mr. MacLain Wilson's reports of the successful Boy Scout Campaign in your city. I wish to convey to you in behalf of the National organization, the heartiest appreciation of your editorial and reading space your paper lent to the campaign.

It seems to me that the biggest business of any city is that of building boyhood. The press of the community can always be of very great assistance. However, it is most unusual for an editor to throw the tremendous force of his paper squarely behind a thing as you did at Ada.

My hope is that Ada and Pontotoc County will exceed our fondest expectations in returns for the investment of time, labor and good will, which you good people have put into it.

Yours very truly,
J. P. FITCH,
National Field Scout Executive

COMMERCIAL AVIATION HERE

SOUTHWEST AND PACIFIC COAST STATES NOW LEAD IN THE NEW FIELD OF AIR TRANSPORTATION.

By the Associated Press

NEW YORK, July 14.—Commercial aviation in the United States shows a healthy, steadily growing popularity, says the Manufacturers Aircraft association in making public here today the report of representatives who have just completed a tour of the country which included inspection flights over most of the territory now served by aerial transport.

"The airplane is undergoing the same development experienced by other vehicles of transportation introduced to the public, the various sections of the country according to their individual topography, customs and natural resources," the report said.

"The southwest and Pacific coast are leading in the adaptation of aircraft to commercial use and plans in preparation contemplate honeycombing that area with a network of aerial transportation lines. In the middle west the airplane is being adopted as the occasion demands, and it is meeting with encouraging success, the severe competition of good railways and highways, the lack of landing fields and the considerable indifference of the middle Atlantic states, New England is accepting it with customary conservatism; the south is using it mainly for private purposes, and Florida and the West Indies have come to recognize flying as a most important method of communication.

"At present there are in the United States 15 manufacturers of aircraft motors and 85 manufacturers of accessories. During the past few months 20 new airplane distributing agencies have been established throughout the country and new aerial transport operating companies have been formed in New York City, San Francisco, Long Beach, Hollywood, Los Angeles, Oakland, Stockton, and Alameda, Calif., Minneapolis, Minn., Philadelphia, Bluefields, W. Va., Bottendorf and Shreveport, La., Ponca City, Okla., Seattle and Spokane, Wash., Detroit, Mich., Arkansas City, Ark., Bridgeport, Conn., Aurora, Ill., Fargo, N. D., Cincinnati, Ohio, Newell, S. D., Birmingham, Ala., Asbury, N. J., Livingston, Vt., Brooklyn and Sprague, N. Y., and Rahway, N. J.

"Aviators are convinced, of the

TAMMANY LEADER IS UNDER INDICTMENT

Charles F. Murphy

Charles F. Murphy, Tammany Hall leader, and five other persons are under indictment in New York on a charge of conspiracy to defraud the U. S. by falsifying income tax returns and attempting intimidation of Louis N. Hartog, a wealthy manufacturer, through criminal prosecution. One of the other five is Assistant District Attorney James E. Smith, a central figure in the "vice war" between

practicability of establishing passenger and express lines throughout the entire Pacific coast, which, roughly speaking, consists of two great mountain ranges and series of valleys. The plans for such lines now in preparation, contemplate connecting San Francisco with Los Angeles, San Francisco with Del Monte, San Francisco with Portland, Ore., over the Cascade range, and Portland with Tacoma and Seattle, Wash., with an almost certain extension of this line eastward to Spokane. A 10 passenger airplane service already is in operation between San Francisco and Los Angeles and a seaplane mail and package express line between Seattle and British Columbia points will begin operations within a few weeks.

"At present there are some 150 airplanes in commercial use in California and 50 more in Oregon and Washington, while a number equal to that of California are in operation in Texas. Most of the machines in Texas are privately operated by persons who made fortunes in oil, but contracts recently were let for

aircraft to be used in transporting supplies between cities and the oil fields. Mining and oil companies desiring emergency supplies or the replacement of special tools have come to depend upon the airplane which, with the level lands, and natural landing fields of the country and the long distances over which the railroads are unable to make quick time, has provided an impetus to commercial adoption of the airplane in Texas.

"A score of flying boats are in operation on the Mississippi and other rivers of the middle west, and 15 on Lake Michigan, with every indication pointing to a substantial increase of the number before winter. Negotiations also are under way for 10 American built flying boats of the recently produced 12 and 18 passenger type for use over the Great Lakes and the St. Lawrence River.

"Two companies that last winter operated a flying boat from Florida to Miami, Havana and Nassau, and carried more than 3,000 passengers, are now employing between 10 and 15 machines in a fairly regular service between New York, Boston and Atlantic City. Both of these operating companies have been financially successful and have announced that they will double their equipment this winter."

HARDING IN SECLUSION TO PREPARE HIS SPEECH

MARION, Ohio, July 13.—Senator Harding went into seclusion today in order to work on his speech accepting the republican presidential nomination. In order that he might give his entire attention to it, no conferences were scheduled and even newspaper correspondents were to see him only once, instead of the customary interview.

A soul stirring drama of the Canadian Northwest! Full of Thrills and Excitement!

How many miles did you march the summer Cleveland was nominated

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

BE WISE!

Some are Wise Some are Otherwise

The wise ones have been taking advantage of our Sacrifice Sale Prices and have been convinced that our prices are absolutely the lowest for Quality Merchandise. We do not believe in sacrificing Quality for Price and you will find our stock consists of new, crisp, clean up-to-the-minute Merchandise and not old shelf-worn, out of date goods. We do not ask that you buy, but come to the store, examine the quality of our merchandise and our Special Sale Price, then use your own judgment in buying. We are convinced you will be one of the wise ones who are daily making their purchases from us. Remember, our entire \$50,000.00 stock has been priced to sell—much of it below the manufacturer's cost. This is a sale that no one can afford to miss. There will be no flowers or music—but Bargains staring you in the face.

MEN'S CLOTHING

We have a most complete stock of Men's and Boys' Clothing. No matter what you need we have it and you will find our price more than right. We have about 1000 pairs of Men's Trousers and about the same in Boys'. Get our prices, they will save you money.

Piece Goods

High Grade Percales. The same as you pay others from 35c to 40c per yard.

Our Price

20c Yard

Ladies' Wash Skirts

We have a nice line of these. The others would ask you for the same, from \$2.50 to \$3.00 each.

Our Price
\$1.98 Each

Wardrobe Trunks

The famous BELBER Wardrobe Trunk. You pay others \$50.00 for the same.

Our Price
\$38.89 Each

Men's Suits

We have a nice line of Palm Beach Suits, values up to \$25. We will close out the entire line and have them priced to sell as low as

\$12.38 Each

Men's Hose

Pure Thread Silk Hose. Ordinarily you pay \$1.25 for this grade.

Our Sale Price

89c Pair

TRAVELING GOODS

We handle the famous line of Belber Traveling Goods. From the complete line which we carry you can easily select one that meets your needs. Back of your choice stands the Belber organization — the worlds master builders of High Grade Traveling Goods.

Boys' Suits

Our entire line is priced to sell — Suits which would cost you \$6.50.

Our Sale Price
\$4.98 Each

Ladies' Shoes

Arabian Kid Oxford military heel. A full run of sizes, regular \$10 value.

Our Sale Price
\$5.98 Each

SHOES!

SHOES! SHOES!

We are now carrying a \$15,000.00 stock of High Grade Shoes. There is nothing cheap or shoddy as we handle only the highest Grade Shoes. If you are looking for STYLE AND QUALITY as well as PRICE—without question this is the place to buy. Don't fail to see our line.

Do not confuse this with the ordinary Sale where a few baits are offered as our entire stock has been led to the slaughter. We found that we were overstocked and were obliged to make room for Winter Goods which are arriving daily. We decided to give the Buying Public our profits for two weeks and this sale is the result. If you live within a radius of 100 miles you cannot afford to miss this great sale. You have only a few days to avail yourself of this money saving opportunity. Lay in a supply for present and future needs.

WHEN GORE WAS THE FARMER'S FRIEND

If there is a farmer in Pontotoc County who is tempted to fall for the well-known campaign bunc that "Gore is the farmers' friend," he ought to read the letter of J. J. Shea of Tulsa recently published in the Tulsa World. Shea is appealing to the oil men of Oklahoma to support Gore and in his letter gives reasons why every oil man should vote for the junior senator. His reasons pour a bright light on this friend of the farmer stuff.

Mr. Shea is no ordinary oil speculator but is the head of the oil lobby at Washington. Speaking of his activities at the national capital he says:

I had the honor to represent the producers of oil in the matter of federal taxation from November, 1917, up to the present time, and in that capacity I came in contact with the men in both houses in congress who have to do with the tax legislation and who prepared and enacted all the tax bills under which the revenue of the government has been collected.

Thus we see that at the time the government was busy enacting legislation to carry on the world war Mr. Shea was at the national capital to see that the oil men carried as little of the war burden as possible. Let Mr. Shea tell who helped him transfer a part of the burden from the oil men to other citizens of the country.

After the bill went to the senate it was referred to the finance committee of that body. The present United States senator, Hon. Thos. P. Gore, was and is a member of the finance committee of the senate, and immediately took a deep and lasting interest in OUR welfare and went his length to see that we received just treatment.

Just what the just treatment was that the wealthiest class of Oklahomans received shall be told by the oil men's lobbyist, Mr. Shea.

A few of the things that were written in that bill largely through the instrumentality of Senator Gore are as follows:
FIRST—Valuation of property, March 1, 1913, for depletion purposes.
SECOND—Valuation of new discoveries since 1913, at the time of discovery as a basis of depletion.
THIRD—A 20 per cent tax on sales in lieu of the surtax on the same. Senator Gore was also instrumental in preventing the laying of a two cents per gallon tax on gasoline and thru his efforts kept that tax out of the 1918 bill.

We see a few things that Senator Gore did to the revenue bill. We shall see what the bill did for the oil men and others.

The enactment of the 1918 law saved millions of dollars of unjust taxes to the producers of oil throughout the United States and it was no simple thing for Senator Gore to devote the months of steady, resolute, and comprehensive work he gave to that bill.

There you have it. Millions of taxes were lifted from the shoulders of oil men and placed on the shoulders of farmers and laborers and business men. The burden of the millionaire was lightened by millions of dollars. The burden of farmers was increased by millions of dollars. The added pated joy rider was saved two cents a gallon on gasoline but the burden was simply transferred to the man in the corn rows.

That revenue bill was written to raise money to win the war. Billions had to be raised. If one class didn't pay, another class had to pay more. Millions were saved to millionaires and joy riders, but those millions had to be paid by those who have neither millions nor automobiles. While that bill was being written and the burdens were being apportioned Senator Gore, "the farmer's friend" was devoting months of resolute and comprehensive work to "our interests."

In closing his appeal to the public Mr. Shea, chief of the oil lobbyists, says:

I feel this matter very deeply and I think it would be the height of ingratitude on the part of the men engaged in producing oil—to fail to return Senator Gore at this election.

Thus a part of the record is written. Senator Gore worked for months to save millions for the millionaires. But the inevitable question arises: "Who paid the millions that the millionaires were exempt from paying?" Where in the record will you find that Senator Gore by months of resolute and comprehensive work saved millions to the farmers that the oil men had to pay?

A SPLENDID RECORD

According to State Auditor Carter Oklahoma will not have to levy any state tax this year for purposes of state government. The gross production tax on oil and gas, the income tax, the corporation license tax, etc., will furnish sufficient funds to run the state without the necessity of levying any ad valorem tax. For the first time in the history of Oklahoma it is found unnecessary to levy an ad valorem tax to operate the state government.

This is a gratifying showing and will be welcome news to the people who pay taxes. It will also be gratifying to the officials charged with governing the state. It is said on the best authority that the state's finances are today in the best condition they have been since statehood. For such a pleasing showing Governor Robertson and his co-adjutors deserve the thanks of the people.

BIG CUP RACE ON TOMORROW

SANDY HOOK WILL BE SCENE OF WILD EXCITEMENT WHEN BOATS START THEIR CONTEST.

By the Associated Press

NEW YORK, July 14.—The first race in 17 years for America's cup will start Thursday of Sandy Hook, the contesting boats being the defender, Resolute, and the challenger, Shamrock IV. It may be interesting at this time both to yachtsmen and to a great many who are not acquainted with this form of sport to read a few facts in connection with this historic yachting trophy. To begin with the America's cup at first was not an international trophy. In fact it had no significance other than being a prize offered by the Royal Yacht Squadron for a race around the Isle of Wight, England, which was open to all nations. In August 1861, the schooner pacer America, owned by Commodore John L. Stevens and four other members of the New York Yacht club, won this race and the cup became their property. Six years later, Commodore Stevens and associates conveyed the prize to the New York Yacht club in trust as a perpetual international trophy which has since been known as the America's cup, taking its name from the schooner yacht which won it in British waters.

The first race for the America's cup, as an international prize, was held on August 8, 1870, over the regular course of the New York Yacht club in New York lower bay. The challenging boat was Cambria, owned by James Ashbury of the Royal Yacht Squadron, Eng., and the cup was defended by practically the whole fleet of the New York Yacht club. That, however, was the only race in which the challenger ever had to sail against a fleet and the only contest in which the issue was decided by a single race. Cambria, by the way, finished tenth in that event while the old America finished fourth, the race being won by Magic, the yacht idler finishing second.

In all there have been twelve contests for the Cup, in the second of which Mr. Ashbury challenged with the schooner Livonia and the New York Yacht club agreed to defend the trophy with only one boat in the race. The 1871 contest was the best four out of seven races. Livonia won a single race owing to the steering gear of the defender Columbia breaking down. Only twice since that day, October 19, 1871, has a challenging yacht crossed the finish line ahead of the defending boat. On September 10, 1895, Valkyrie III, after following the defender finished 1 minute and 16 seconds ahead of the American boat and on October 4, 1901, Shamrock II, finished two seconds ahead of Columbia but lost to the defender by virtue of conceding 42 seconds time allowance.

In the races of 1876, 1881, 1885, and 1887, the contests were decided on the basis of the best two out of three races. From 1893 to the last race in 1903 the agreement was for the best three out of five races.

On only three occasions has one of the competing yachts for the America's cup failed to finish. In the last race of the 1895 contest, Valkyrie III withdrew immediately after crossing the starting line. On October 17, 1899, Shamrock lost her topmast and withdrew in the second race of that year and on September 3, 1903, Shamrock II did not finish in the final race of the series as she was already beaten and had nothing to gain by continuing.

Just once in the history of the cup races has a competing been disqualified. This was in the second race of the series of 1895 when Lord Dunraven's Valkyrie III was disqualified for fouling the Defender.

The fastest time ever made in a race for the America's cup credited to the old schooner Columbia. On October 18, 1871, the day before she was defeated by Livonia, she sailed 20 miles leeward and windward 40 miles in all in 3 hours, 1 minute and 33 seconds. It must not be inferred, however, that the Columbia was the fastest yacht that ever sailed for the cup. There is no method of determining the relative speed of two or more boats other than by the results of a race in which they sail together. When Columbia made the fast time referred to undoubtedly the conditions of wind, weather and sea were most favorable.

The fastest time ever made on a 15 mile course straight away and return, 30 miles in all is credited to the defender Vigilant. In a race on October 13, 1898, she covered the course in 3 hours, 24 minutes and 29 seconds.

The fastest time in a triangular race for the cup was made by Columbia on October 3, 1891, the time for the distance, thirty miles, being 3:30:18.

In the first three contests for the cup the challenging boats were schooners and the defenders for the second and third also were schooners. In all other contests, however, the yachts have been sloops or cutters.

The smallest challenger in the history of the cup race was Atlanta, which was built at Belleville, Ontario, Can., in 1881. She measured 64 feet on the water line and a contest.

The first yacht ever built especially to defend the trophy was Pocahontas. This was in 1881. Prior to that year the New York Yacht club had selected from its

fleet the yacht considered to be best suited for the purpose. Pocahontas did not come up to expectations and was rejected in favor of Mischief, one of the finest sloops of the fleet. Since that year, however, new defenders have been built for every contest.

There were two candidates for the honor of defending the cup in 1885, two in 1886 and four in 1893, and in every contest, excepting one since the race between Atlanta and Mischief the cup has been defended by a yacht built for that particular race. The one exception was in 1901 when Constitution built for the race of that year was discarded in favor of Columbia which successfully defended the trophy in 1899.

Hopping Counters Is Worse Than Selling Bevo Says Salesman

That salesmen get blue and want to catch a long "slow freight train and ride," as evidenced by the statement made today by Harry Reed, popular young salesman in the Dunlap Bros. store.

Harry appeared rather blue this afternoon and declined to give out any information, other than that Dunlap had 20 stores in this state and today only had 19, due to the fact that business was "rotten" in the store in this city.

A lady salesman, somewhat older than this young man, told a News reporter that the best looking salesgirl was leaving the city for a few days' visit and that this was the cause of Harry's looking downhearted and feeling bad.

"I would get a job selling Bevo on the road, but you see a fellow might get blue and start to hard drinking," said Harry as he stumbled over a stack of overalls. "No, this is the life for me, hopping over these counters and lookin' 'em over as they come in."

J. N. Morgan of Ardmore Dead
J. N. Morgan, an old citizen of Ardmore, died yesterday in a sanitarium there. He was well known to several people in Ada and had the reputation of an upright man. At one time he was connected with the Woodman Lodge as an organizer and worker.

CHURCH OF CHRIST HOLD MEETING

LARGE CROWDS IN DAILY ATTENDANCE; MEETING HELD ON MAIN IS PROVEING SUCCESSFUL.

The meeting being conducted by the Church of Christ is growing in interest. Last evening's meeting was held in the grove just back of the church house where it was delightfully cool. Day services are fine at 10 o'clock each morning.

It was stressed by the evangelist that it was not so important as to one's life today, how he lives. This, declared the preacher, is not the most important thing. But above

everything else, one should be sure that he has surrendered to Christ; that no nook or corner of his heart is reserved in making that surrender; that it must be a wholehearted surrender without "reservations." Mr. Armstrong said that church members who professed to follow Christ were in a large measure only following in those things that were pleasing to them; that church members did not hesitate to set aside the plain life of Christ whenever it was to their interest to do so. It was affirmed by the evangelist that while no one singly would set aside the whole example of Christ, jointly the members of the churches who claimed to be his followers were actually doing that very thing daily.

Mr. Armstrong appealed to women to apply the principles of Christ in the furnishing of their wardrobes. He said that no Christian school girl had a right to leave the making of that commencement

dress to a worldly mind to dictate how long should be the skirt or how long the neck. The speaker declared that the morals of their sweethearts, brothers, husbands and fathers were involved.

On the first "leaf" in the book of His marvelous life the speaker found Christ's perfect submission to the will of the Father. It was shown that Jesus came down from heaven to do the will of Jehovah, and that this makes it the mission on earth to every follower of Christ to do that will.

The lesson was timely and no one who wants to be a better man or woman or that wants a better town to live in can afford to miss these lessons.

Another great lesson is awaiting those who attend tonight.

Good singing conducted by Mr. Tedlie, faithful preaching of the word of God, all in the cool, are the special attractions to this meeting.

Midsummer Days.

With the ripple of leaves and a
link of streams
The full world rolls in a rhythm
of praise.
And the winds are one with the
clouds and beams—
Midsummer days! Midsummer days!
The dusk grows vast; in a purple
haze,
While the West from a rapture of
sunset rights,
Faint stars their exquisite lamps
upraise—
Midsummer nights! O midsummer
nights!

The wood's green heart is a nest
of dreams,
The lush grass thickens and springs
and sways.
The rathe wheat rustles, the land-
scape gleams—
Midsummer days! Midsummer days!
—W. E. Hensley.

Married.

Announcements have been re-
ceived here of the marriage of
Harry Schienberg to Miss Ruth
Hankins in Chicago on July 2nd.

Both parties are well and favor-
ably known in this city and have
many friends who wish them much
happiness and prosperity.

Miss Hankins was formerly an
instructor in the East Central State
Normal of this city and is reputed
to be a splendid musician.

Mr. Schienberg is the son of Mr.
and Mrs. B. Schienberg of this city
and was connected with his father
in business in this city until re-
cently. He left this city and was
attending school in the city of Chi-
cago up to the time of his marriage
to Miss Hankins.

The couple will make their fu-
ture home in Chicago.

Personal Mention

Tom D. McKeown attended the
picnic at Atwood today.

Mrs. D. T. Blair of Stonewall is
here visiting friends.

Miss Eleanor Wilkerson of Sher-
man, Texas, is visiting Miss Fay
Laird.

Miss Lee Mossman of Okmulgee
is visiting in the city with Miss
Lettie Rock.

Mrs. O. J. Wilson of Henryetta,
is here visiting her parents, Mr.
and Mrs. Ed. Runyon.

Mr. and Mrs. J. L. Barringer left
yesterday for Ardmore where they
will visit friends.

W. W. Sledge returned yesterday
from Sulphur where he has been
enjoying a short recreation.

Er. L. Read is leaving today for
Sulphur where he will meet his
daughter.

Mr. and Mrs. L. Jacobson and
family of Amarillo, Texas, are visit-
ing in Ada with S. Jacobson and
family.

Mrs. George Current has just re-
turned from several weeks spent in
visiting in Fort Scott and Neodasha,
Kansas.

Mrs. J. L. Barringer and Mrs.
Tom D. McKeown have just re-
turned from an overland trip to
Colorado Springs.

Misses Grace Harrison and Edith
Villines of Maud left yesterday
after visiting Miss Allie Drain.
They left here to visit with friends
in Wetumka.

P. H. Deal returned today from
Lonoke, Arkansas, bringing his
father, P. S. Deal, with him. The
latter will visit in Ada for some
time.

Miss Nora Adair of McAlester is
in the city visiting her parents,
Mr. and Mrs. J. L. Adair. She has
just returned from Sulphur where
she has been resting up.

Miss Carrie Will Coffman of
Holdenville, departed for her home
this morning after a pleasant visit
with Miss Leone Steed, an old O.
U. friend.

John Craig and Plez Ferris left
this afternoon for Connerville, the
home of the latter. The two were
one time old foot ball players in
East Central. Mr. Craig will visit
awhile and get a taste of farm and
ranch life.

R. H. Welsner, manager of the
Western Union office in Ada, is
away for a two weeks vacation at
Hot Springs, Arkansas. His place
is being filled temporarily by G.
B. Goodwin, relief manager of the
Western Union.

Mr. and Mrs. R. W. Simpson en-
tertained last evening with a din-
ner-dance honoring Miss Mildred
Reed of Ardmore, the house-guest
of Miss Callie Brown. A detailed
writing of the affair will appear in
the issue of tomorrow.

Mrs. Leon Scott of Muskogee,
left for her home today after visit-
ing her daughter, Mrs. Joe Fos-
ter, and granddaughter, Mrs. Ed
Stewart. Also Mrs. M. A. Turnbo,
pranddaughter of Mrs. Ed Stewart,
accompanied Mrs. Scott to Mus-
kogee.

As indemnity for the Franco-Prus-
sian war France had to pay Ger-
many five billion francs within
three years.

YELLOW ORGANDY IS
POPULAR THIS SEASON

By Eloolse.

Pink and blue may be old fa-
vorites and orchid may be one of the
most popular shades for the 1920
summer, but a certain bright, clear
yellow is undoubtedly the most
fashionable of summer shades and
it prevails in almost every type of
wear, hats, hose, frocks, skirts,
blouses, neckwear, handkerchiefs
and parasols, and of course sweat-
ers. It is a trencherous color, how-
ever, and care should be taken by
those who wish to wear it. The
sallow, the pale and the gray-haired
woman should avoid it as she would
a new wrinkle. Dark girls, particu-
larly the highly colored ones, may
wear this new color with ease and
assurance.

What could be more daintily femi-
nine than this ruffled gown of a
sheer yellow organdy? It is a youth-
ful model with vertical ruffles on
the skirt which gives the effect of
long lines even though the skirt is
full and bouffant in effect. Tiny puff
sleeves, a round neck and a wide
crushed girdle are the other fea-
tures worthy of comment. It makes
a very charming frock for summer
dances or garden parties.

Onk Avenue B. Y. P. U. Social
The senior B. Y. P. U. of the
Oak Avenue Baptist church gave a
social last night at the home of
L. Warr on West 9th street. The
affair was in honor of Miss Mabel
Clark, a faithful member of the
organization, who is going to begin
teaching school Monday at Byrd's
Mill.

About 75 young people were re-
ported in attendance and to say that
they had a good time is putting it
mildly. A variety of games were played
on the porch and in front of the
house.

Refreshments, consisting of fruit,
ice cream and cake, were served.
The young people departed at a
late hour feeling that the evening
was indeed well spent.

Mr. W. H. Ledbetter, of near
Shreveport, La., is in the city the
guest of his son, T. R. Ledbetter,
428 W. 13th street. The old
gentleman has lived out his allotted
three score and ten years but looks
as though he was good for several
more. He paid the News office a
pleasant call this morning.

NEW FUSION
PARTY MAKES
LITTLE PROGRESS

By the Associated Press
CHICAGO, July 14.—Little pro-
gress was made by the new fusion
party during the first two hours
of its convention today and an
undercurrent of dissatisfaction was
in evidence throughout the meeting.
It once more required the pleas
of leaders and constant conferences
to keep breaks from cropping out.
The platform was not ready for
presentation and the convention was
occupied with minor details of busi-
ness. The committee of Forty-eight
at an early morning caucus de-
cided to continue its state and na-
tional organization regardless of
the action of the present conven-
tion and to meet separately tonight
to consider the convention's ac-
tions.

Senator LaFollette was still being
referred in platform conferences,
but there were few indications of
what was being done.

At 11:45 the platform committee
ordered the typing of a third ver-
sion of a fusion party platform and
sent word to the convention that it
would report at 1:00 p. m. The
convention adjourned until that
time.

Thieves entered the Keltner
Wholesale Grocer Co., storeroom
last night. Nothing of value, with
the exception of a few cigarettes
were missed by officials of the
company. The work is evidently
that of small boys and entrance
was gained to the building by
breaking out a window in the
transom.

New arrivals of fancy autumn
suits now on display at Simpson's
7-14-1td.

Pavement Pickups

Ladies: Have you seen those new
autumn suits at Simpson's? 7-14-1td

John Flowers left today for cam-
paign business in Roff.

First showing of new autumn
suits for women at Simpson's.
7-14-1td.

Miss Jessie Rogers left this after-
noon for business in Roff.

Cecil Deal is in the city for a
short visit. He is on the road now
representing an art company.

Clean rags for bandages and
wash cloths will be greatly ap-
preciated by the Faust Hospital.
7-13-1f.

An American scientist sent to
Greece to investigate agricultural
conditions discovered extensive and
heretofore unknown deposits of
potash and lime.

Mrs. C. S. Anderson, 423 E. 13th.
Phone 968. Official collector for
Pontotoc County Medical Associa-
tion. 6-1-1f

L. E. Pettigrew arrived in Ada
on the Frisco this morning.

R. L. Rollins of the Beebe com-
munity was in Ada today. He
confirms the usual reports of good
crops. Corn is very good, he states,
and cotton is not being bothered
by boll weevils in that section. Cot-
ton, however, will be somewhat
late this year.

Grant Irwin Shows
The Natives a Real
Buick Auto Today

Mr. and Mrs. Grant Irwin have
just returned from Oklahoma City
where they purchased a Buick
roadster from the distributors in
that city.

They made a very successful re-
turn trip in this car and Mr. Irwin
stated that this car performed in
a most perfect manner. It is the
latest improvement of motordom
and without a question of doubt,
the most beautiful car in this city
in the roadster class.

Mr. Irwin is doing a splendid
business with these cars and is
making many friends over this sec-
tion of the country with Buick
automobiles, which are known thru-
out the country as being depend-
able and built of the best material.
This car is now on exhibition at
the garage on the corner of 12th
and Townsend and those who ap-
preciate good-looking cars should
call and inspect this new roadster.

Tongs gripping their necks se-
curely have been invented for car-
rying heavy bottles of liquids.

MARY PICKFORD TO
SHINE AGAIN IN 'SUDS'

That Mary Pickford is the great-
est artist of the screen will be
demonstrated to everyone's satis-
faction at McSwain's Theatre in her
appearance in her second United
Artists Corporation production,
"Suds," next Monday.
Much has been written and said

about Mary Pickford's artistic abil-
ity—how she can take her audience
from laughter to tears and back
again by the mere move of her
hand and the expression of her
wonderful features.

As Amanda Affleck, the little
slavery in a French laundry in the
slums of London, Miss Pickford
is seen in an entirely different role
in which she has heretofore ap-
peared. Gone, except for occasion-
al flashes, are the famous curls and
beautiful clothes, and instead we
have the seamy, greasy faced, pug
nosed tramp which for quite a
while is difficult to recognize as
our beautiful Mary. This above
anything she proves she is an ar-
tist, for very few of our women
of the films would sacrifice beauty
youth and clothes in order to give
an artistic performance—but all
this has Mary done, and more. But
with her deft handling she makes
this little nonentity of life a living
breathing person—a type you have
all seen but which you never cared
to remember.

When Amanda tells the other
girls in the laundry of her imagin-
ary real station in life and de-
scribes scenes in her father's castle
where Horace, her imaginary lover
actually figuratively proves his de-
votion she had us screaming with
laughter—and again, when the same
little figure actually meets the lov-
er of her dreams, and realizes that
he would be ashamed to be seen
with her in public, her audience
was weeping copious tears.

THE BOLSHEVIK FORCES
MADE FURTHER ADVANCES

By the Associated Press
LONDON, July 14.—Further ad-
vances by the Bolshevik in their
campaign against the Poles are re-
ported in Tuesday's official com-
munique, received by wireless from
Moscow today.

With the pan of porcelain, the
case galvanized or enameled and
the working parts immersed in oil,
a new scale for creameries and
dairies is rust proof.

In diamond mining the material
from the mines is exposed to the
elements and disintegrated.

BEMOANING OUR LOT

A lot of good time and en-
ergy is wasted by a lot of
good people in bemoaning
their lot. They pity themselves
because the fates were against
them. They conceive the idea
that theirs is a special burden
far heavier than that placed
on their neighbor's shoulder.

We are all more or less
guilty along this line. The fact
is, however, clearly illustrated
by one of Shakespeare's char-
acters that remarked, "The
fault, dear Brutus, is not in
our stars, but in ourselves."

When you see a talented
man who has made a suc-
cess in his line, don't think
that nature was partial to
him. But, put it down that
that man was tempted astray
by powers as strong, pro-
portionately, as the powers
that led him to victory in life.
Emerson gave this thought
when he said: "For every
gift you receive a tax is
levied."

Then don't show your little-
ness by whining. Stop saving
your conscience with the de-
lusion that you were created
with such and such weak-
nesses. We can all be suc-
cessful if we will to be.—O.V.M.

Bank, P. A. Norris.
Daggs
Store, Charlie Floyd.

Ada Will Play Team
From Henryetta Here
On Sunday Afternoon

What promises to be one of the
best games of the season is slated
to be played in this city Sunday
afternoon by the ball teams of Ada
and Henryetta.

The local club has received sev-
eral new men who proved to be
good players as evidenced by the
record made in the Tupelo-Ada game
played here last Sunday.

Henryetta is the undefeated
team of the northern part of the
state and are reputed to have a
very fast team. The game is to be
called at 4 o'clock and those who
wish to see a good game should
be on time and secure suitable
places in the grandstand and for
parking for cars.

Hats cleaned and reblocked.
Miller Bros. 6-5-1f

School Board Lets
Contract for New
Ward Building

Sam Hill of Ada has received the
contract to build the new ward
school building in the "South
Ward." The contract price is \$64-
720, which was \$2,780 less than
the highest bid. There were five
bids submitted to the school board.

The new building will be erected
on the block purchased by the
school board some time ago be-
tween Sixteenth and Seventeenth
streets and between Oak and Ash
avenues. Work will begin on the
new building as soon as possible in
the hope that the building may be
finished in time to relieve the con-
gestion in the various ward schools
of the city.

The building is to be composed
of pressed brick and will be con-
structed in such a manner that ad-
ditional wings may be added to it
later on without changing any of
the walls.

COMMISSIONERS
EXPLAIN BONDS

To the General Public:
At the primary in August of this
year there will be submitted to
you a proposition to vote \$225,000
court house bonds for Pontotoc
county and \$400,000 road bonds
for Pontotoc county, the said roads
to be built on all the state high-
ways of the county and connecting
each town.

It has been brought to our at-
tention that there is an impression
among a few people of the county
that in event the bonds are voted
we will not be able to sell the same
at their worth. The commissioners
of the county desire the people to
know that if the bonds are voted
they will not be sold until the
bond market becomes normal, and
until they can be sold at their
worth. Neither would the commis-
sioners sell the bonds and attempt
any work until the prices of material
were reasonable. Our main object
in submitting the bonds at this
time is to save the expense of an
election. By having the bond elec-
tion at the primary in August the
expense of the same will cost noth-
ing so far as voting on the bonds
is concerned, whereas if we waited
a few months later and submitted
this to a vote we would have to
hold a special election in Pontotoc
county, which election would cost
a considerable sum.

We are making this statement
so that the voters can understand
the situation and so that they will
know that if they decide to vote
favorably for these bonds that the

commissioners will not sell the said
bonds until the bond market is
normal, and their full worth can
be realized, and until the people
can receive one hundred cents on
the dollar for every dollar invested
in material.

W. H. BRUMLEY,
Chm., Board of County Com.
J. I. LAUGHLIN,
County Commissioner.
J. D. FACE,
County Commissioner.

News From Movieland

Everyone has been so interested in pretty little Ann May since her recent appearance with Charles Ray in "Paris Green" that we knew this newest picture of her would be wanted for that movie scrapbook. For those who do not know much about the little actress here is her brief history:

She was born in Cincinnati, Ohio, in 1901. Now, of course, we've let the cat out of the bag, but one so young really does not mind who knows the fatal date. In 1916 Miss May had finished a course in a school of dramatic art, which shows that she planned for her present career in her early youth. She was connected for some time with the Little Playhouse in Cincinnati and then her screen career began. She played with Goldwyn in "A Marriage for Convenience" and with Metro in "Lombardi, Ltd."

Black, curly bobbed hair, and brown eyes are two of the petite Miss May's chief attractions. Now you know all about her.

Ann May.

Wants Hart for Sheriff.

The popularity of William S. Hart among film patrons was given striking evidence recently, when the democrats of Hood River county, Ore., nominated him for sheriff.

Five democrats wrote in the name of the Paramount star on their ballots, and late returns indicate that Hart has received the nomination, as no other democrat was voted on.

Mr. Hart was not at all hesitant about stating that there was no doubt in his mind but that he could dictate the peace policy of Hood River county with as much aplomb and justice from his home in Los Angeles as he could from the county seat up in Oregon.

Democratic leaders in Oregon are quoted as saying that if Hart would accept the nomination as sheriff the Hood River voters would overwhelm the opposition at election time.

Robert's "Bion" Delinquent.

First and foremost, let it be known that our own matinee idol, Robert Warwick, goes by the more prosaic name of Robert Taylor Bion in private life. That is the signature he affixed to the marriage certificate when he took the then Miss Arline Peck of Chicago for his domestic partner in March, 1902.

This point being settled, it is hereby recorded that a suit has been filed in the circuit court by Mrs. Arline Bion against Robert Taylor Bion, her divorced husband, for \$34,444 back alimony.

The couple were happily wedded five years, then, according to her by default and she was awarded \$3,000 a year alimony. Mrs. Bion alleges that her ex-husband has paid her only \$1,500 to date and that he has an annual income of \$125,000.

THE MISERY OF BACKACHE

Remedyed by Lydia E. Pinkham's Vegetable Compound.

"I have suffered for six years I was so weak in my back at times that I could hardly walk. Lydia E. Pinkham's Vegetable Compound was recommended to me and it made me good and strong again so that I am able to do all my work. I highly recommend you to everyone I meet what it did for me." —Mrs. G. SCURRO, FIELD, 72 Oak St., Muskegon, Mich.

Woman's Precious Gift

The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

testimony, in 1909, when her divorce was granted. Bion "willfully deserted and absented himself" from his wife. The suit went to her.

MONROE & NICKELL HAVE SOLD FURNITURE STORE

The Monroe & Nickell Furniture company has sold its business here to J. H. Pryor. Mr. Pryor came here in February from Milburn, Oklahoma, and since living in Ada has been working in the grocery stores of the city. The business is located at 123 West Main street. The new owner intends to serve the public to the best advantage possible.

Milton's works are believed to have been influenced by the great Dutch poet, Joost van del Vogel.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieve me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui.

By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone. I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133

NOTICE WOMEN'S AUXILIARY OF CHAMBER OF COMMERCE

The Mayor has named July 13th as Clean-up Day and the wagons will start hauling next Monday. In the meantime see that every one in your block cuts the weeds on or about their premises and has cans and rubbish in barrels or box in the alley ready for the wagon to haul away.

Please put out plenty of slack lime in places where flies and mosquitoes breed. Let us keep up the record of last year—practically no typhoid fever in Ada. This can be done if you keep your places clean and don't forget to punch a hole in every tin can that you place in the rubbish barrel. This keeps cans from holding water and becoming breeding places for mosquitoes.

Call office of Auxiliary if there is an unsanitary places in your block. Do this at once.

Mrs. J. P. MCKINLEY, Sec. Mrs. TOM HOPE, Pres.

COX MAY VISIT OKLAHOMA CITY DURING THE FAIR

OKLAHOMA CITY, July 13.—J. F. Warren, president of the State Fair association, yesterday telegraphed Gov. James M. Cox, democratic presidential nominee, inviting him to speak at the State Fair here this fall. As Mr. Cox has intimated he intends to tour the west, Mr. Warren says an attempt will be made to have him visit Oklahoma and at the same time arrange his schedule so as to make an address here. Prominent state and national officials have also forwarded invitations. Mr. Warren declared.

RETURNS TO SEEK DIVORCE FROM TITLED HUSBAND

Lady Hadfield.

Lady Hadfield, formerly Frances Wickersham of Philadelphia, Pa., is reported living at Walley's Spring, Douglas county, Nevada, only three miles from the place where Mary Pickford established her residence when she went to Nevada to secure her divorce. Further, Dame Rumor

states, Lady Hadfield has left the excitement of London to live for a time in a dreary little Nevada town for the express purpose of obtaining a divorce from her titled husband, Sir Robert Hadfield, a British ironmaster.

Goodyear Skill—as Represented in Tires for Small Cars

The high relative value built into Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, results directly from the extraordinary skill and care applied to their manufacture.

To make their quality available widely, Goodyear operates the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking one of these sizes, you can equip it with Goodyear Tires at our nearest Service Station.

Go there for the exceptional value in these tires, made possible by Goodyear's resources, experience and demonstrated expertness in tire manufacture.

WILSON NAMES NOVEMBER 8TH FOR LEAGUE MEET

By the Associated Press

WASHINGTON, July 10.—November 8th has been determined upon as the date for the first meeting of the assembly of the League of Nations, it was stated today at the state department.

Eighty-seven earthquakes were recorded by the government in the United States last year, 40 fewer than the previous year.

Suffered Intense Pain
"A few years ago when visiting relatives in Michigan something I had eaten brought on an attack of cholera morbus," writes Mrs. Celesta McVicker, Macon, Mo. "I suffered intense pain and had to go to bed. I got a bottle of Chamberlain's Colic and Diarrhoea Remedy and one dose relieved the pain wonderfully. I only took two or three doses but they did the work."

Vendetta is an established custom among the Albanians.

Be given a vacation
Next Saturday.
Slim's Ford has
Recovered and is
Open for all
Engagements.
Why not make a
Trip to Alaska
These hot days?

—Slim.

Miss Elizabeth Woodruff of Jacksonville, Fla., is visiting the Normal today.

The enrollment this morning totals 832. Several teachers are withdrawing and accepting places in the rural schools as instructors for the summer term.

The opera "Cantata" will be given on or about the 28th of this month. Rehearsals are now being made and much noted progress is made by those who will participate.

The seniors will hold a meeting tomorrow and make plans for their picnic that is to be given this week. Some matters of business will be taken care of at this meeting.

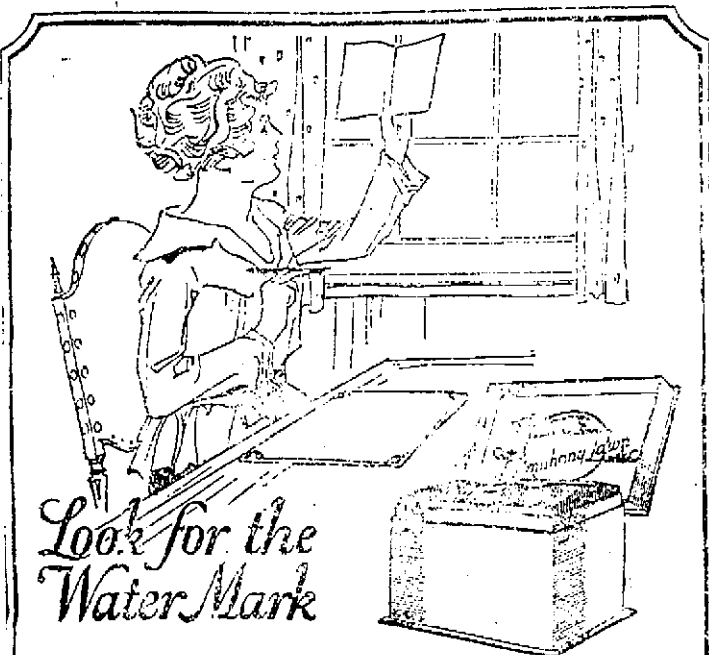

The picture show that is to be given Friday night at the Normal will be one of the best that the management has presented in some time. Good musical numbers will be given and all are invited to attend.

The programs given at regular assembly hour during this term have been of the best and much credit is due President Perkins for the arrangements. To him we extend our many thanks for his untiring efforts to make this school better.

The "Old Man" is due to arrive in the city this afternoon and will have something to say to the people of this city in the issue of tomorrow. He will probably provide another affair for his children who are members of the Red Red Rose fraternity.

Dr. Rolla G. Sears took his commercial classes to Byng late yesterday afternoon. The party used three large trucks and visited places of interest in this section of the country. Doctor Sears is putting forth special efforts to make this work interesting for members of these classes and is receiving much praise from the student body for his speedid work.

The Y. W. C. A. girls went on a picnic party to the Jack Fork last evening. The party left the normal about 6 o'clock and arrived at the scene of activities one hour later as the trucks were well loaded with picnickers and good things.

Look for the
Water Mark

Symphony Lawn

The Paper with the Inviting Texture

HOLD a sheet of Symphony Lawn Writing Paper to the light. Note its translucent clearness. Then feel the beauty of its real lawn texture. It invites you to use your pen. Then observe the water mark—placed there for your guidance and protection. Symphony Writing Paper is the choice of discriminating women—not only because it is in good taste, but because of its splendid writing surface. Made in three finishes and several fashionable tints. Sheets and envelopes to be had in a number of styles, permit expression of personal taste. Correspondence cards and envelopes, also.

to eat and could not navigate at the 2:40 rate. Anyway, the party was a success and many amusing incidents took place during the evening. No one was hurt and all present report that they had one of the best times of their lives.

Pontotoc Defeats Johnston.

Last evening in the gym building the basket ball team of Pontotoc county defeated the team of Johnston county with a score of 37 to 6. A good game was had and many people from the city attended.

The Senior Class.

The senior class of this term is in better shape financially than any class of former years. They have a balance in the treasury of \$500 and do not owe any debts. It is planned to erect a fountain on the normal campus with part of this money.

Assembly.

The regular assembly was held this morning at 9 o'clock in the auditorium. The entire student and faculty body were present.

The program consisted of a piano solo by Miss Natalie Manville.

several readings by Miss Louise Wilson and various musical numbers by the normal orchestra.

Miss Starr led the community singing and this feature embodied all folk and patriotic songs. This number alone was an entertainment and same enjoyed by everyone.

Reverend Armstrong of Harper, Kans., who is conducting a revival at the Church of Christ, was present and conducted the devotional services.

T. Earl Sullenger, M. A., General Field and Community Agent, of Norman, Okla., was present and made a very interesting talk on school extension work.

President Perkins made several announcements, one in particular was that there would be a special assembly tomorrow morning at 9 o'clock at which time he would read the story "Putting Your Head in the Lion's Mouth." This will be a very interesting meeting and all are requested to be present.

At the Gym.

Single relay race. Active, play against one another. A line is drawn

The players are divided into several equal groups who compete against one another. A line is drawn across one end of the ground and the groups line up in rows about four to five feet apart, with the leader of each group to the line. A walk, fence, line or goal of some sort should be located about a hundred feet from the starting line.

At the signal each leader runs forward, touches the fence with his hand or the line with his foot. If he is an object such as a stick, post, etc., he runs around it back to the starting line and touches the hand of the second player, who has moved up to the starting line and stands with his right arm stretched out to the side. The runner then goes to the rear of the line, while the player whose hand was tagged immediately runs for the goal, back, and touches the hand of the person next in line; this continues until the first leader is again at the head of the line. When the last has run, and the leader's hand is tagged, he should raise it quickly.

so the referee may judge the finish.

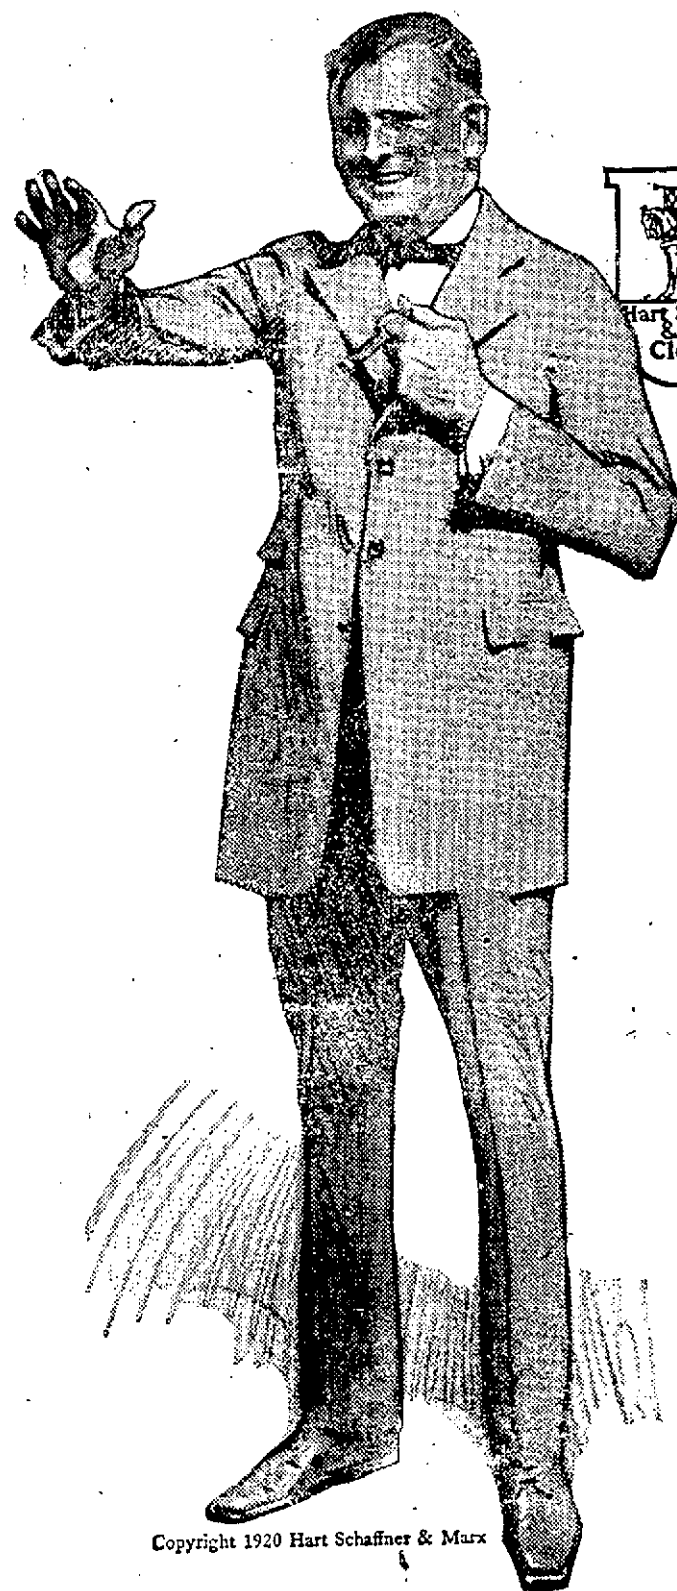

Fouls: Should a player step over the line, or reach across the line with his hand before he is tagged, a foul must be counted against his line. If his line should get in first, his line would not win. The line coming in second with fewer or no fouls, should win. The races may be varied by having pupils skip to line and run back or walk and run back, or run backward and run back, or hop on one foot and run back.

Signal: "On your marks." "Get Set." "Go."

New telephone directory will go to press soon. Arrange for changes and advertising space at once. Southern Bell Telephone Co. 7-13-6td.

Have you seen them? What? Those nice hats that are selling for \$1 and \$4.98 at Glines-Battell Harris Hotel building. 7-13-11
